The fastest mile ever traveled by a human was made by Bob Burman in his Blitzen Benz at Dayton, Fla., Saturday. He covered the distance in 26.12 seconds or at the rate of 138 miles an hour.

Inexperience assisted one Round Hogan in losing to Ad Weigast on Wednesday night in New York. The champion was in bad shape soon after the first bell, when the western fighter threatened to make good concerning his cognomen. However, the bell saved the champion, and in the second round Hogan got gay and his downfall came swiftly.

With the mercury on the climb, and the ground drying like an old boot in an oven, local ball players should look to preparation for the practice that must come soon, providing present favorable conditions prevail. Other provincial towns are moving in this direction much faster than is imagined locally—it will not do to give them the bulge.

Al Shrub, the British crack long distance champion, and Fred Cameron the Boston Marathon champion of 1910, have been matched to run a special 12 mile race at the Boston Arena on next Saturday night. After much dickering over the distance of the race that both runners have been clamoring for, the men decided to test their mettle over the modified Marathon route.

Arthur Duffy in the Boston Post has this to say about the race: "Freddie Cameron, last year's B. A. A. Marathon winner, is taking a great chance in meeting Al Shrub in a special 12 mile race in Boston, according to Cameron's views, however Shrub cannot keep his running powers forever and is bound to get a licking sooner or later. The provincial champion claims he is in better form than ever and if he defeats the little Britisher he will claim the world's championship."

John Arthur Johnson, champion arrived home from the San Francisco jail in Chicago on Tuesday. He ate five meals a day on the dine and said he was fit. Jack drove out to his home. No, not in an automobile, but in a cart, behind a horse. It was believed that this procedure be followed.

"I shall attend the coronation of King George V, in London declared, Johnson, and I probably shall remain on the other side for some time. After the coronation I expect to attend the horse show in Dublin, and then I shall go to Paris. My visit to

Back in the pioneer days before there were churches in Harcourt, she joined heartily with others in erecting a public hall, where the services of all the different Protestant denominations were held for many years. She was leader of the choir both in vocal and instrumental music. Mrs. Allan was 65 years of age and was born in Chippewagon, Queens Co. She leaves a husband, who is station agent at Dalhousie Junction, one son, Gilchrist, of Dalhousie, an aged mother, residing in Harcourt, one brother Stephen, a merchant of Harcourt, and one sister, Jessie, also residing in Harcourt. LONG LIVE THE TOMBOY

Do not teach our young girls that they must not pass through a tom-boy period. There is a time in which the clean boy and girl live and enjoy in the manner and after the nature of sexless animals. During this period and in Nature's own way, there come to the fore, principles that will be utilized to advantage at a later date when more clearly understood. Forbid the girl to ride bareback and to climb a tree, and you rob her own home, of the keen enjoyment of the athletic mate when the horn calls him to the chase, or the nation's signal beckons him from her side to war. One noble mother may indeed smile through her tears at the thought that God gave her seven sons who could lay down their lives for their country. For every one of her, seven sons witness a hundred who to-day chafe at the thought that their husbands find pleasure in athletic or robust interests that momentarily lead to forgetfulness of them.—From Physical Culture for May.

A GREAT REMEDY FOR LITTLE ONES

That is what thousands of mothers say of Baby's Own Tablets. We have received thousands of letters praising them—we have yet to receive a single copy condemning them. The Tablets can do no harm even to the newborn babe. They contain none of those poisonous drugs which make the so-called "soothing" mixtures so dangerous to the welfare of the little one. They are a scientific medicine prepared by one of the greatest specialists on childhood ailments, and should be kept in every home where there are babies or small children. Mrs. Fred McCarthy, Pinewood, Ont., writes: "I have used Baby's Own Tablets and have found them a great remedy for little ones. I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

TO ORGANIZE ST. GEORGE'S SOCIETY

Rev. W. J. Bate has received word that Mr. J. C. Anderson, now of Fredericton, will arrive in Newcastle in a few days to take steps with Miranichi people in the formation of a St. George's Society. Rev. Mr. Bate who is enthusiastic in the matter, notified the Archdeacon and a large representation is expected from Chatham and other places, when the time comes. Those desirous of joining the St. Georges society will kindly send their names to Rev. W. J. Bate, while Chatham persons may forward their names to Archdeacon Neale or Mr. Snowball.

The objects of the Society are:

1.—To encourage and strengthen the spirit of patriotism amongst all of English birth or descent, irrespective of creed or party, and to maintain that spirit of fraternal union and sentiment of race, which should animate all of kindred blood, helping to preserve those distinctive characteristics, traditions and customs which have contributed to make the English pre-eminent the world over.

2.—To maintain the recognition and celebration of St. George's Day—the old English Festival Day of St. George—and the anniversary of the birth and death of Shakespeare, April 23rd.

3.—To further British Interests by every possible means, and to render assistance in furtherance of all English and Patriotic movements.

4.—To promote social intercourse among its members, and to extend aid to Englishmen and Welshmen or their descendants, or their widows and orphans.
