**BEAVER FLOUR** 

is a real friend

to home cooks

OU can depend on "Beaver" because it is a perfectly balanced flour. It has the real homemade flavor of Ontario wheat

This is true because these two varieties of wheat are blended before being ground. Thus "Beaver" Flour has the flavor of the Ontario pastry flour, with the

increased strength due to the addition of western wheat.

Being always blended in exactly the right proportions. "Beaver" Flour is always the same. You can depend on it for all your baking.
