

THE FALL SHOW.

Magnificent Weather and a Successful Exhibition.

An Excellent Display of Fruit and Vegetables—An Attractive Horse Ring.

It would have been impossible to have the fair upon finer weather than that which prevailed on Tuesday and Wednesday, the days of the West Riding fall show. The clear sky and the warm sunshine made the days feel like midsummer. There was a good attendance, and on the whole the affair was a success. We make no special mention of exhibits in regular classes.

Not having time for a full general description of the exhibits, we will not attempt any. The prize list is supposed to tell the true story, although, as is usually the case at exhibitions, the judges' verdict was in many cases not that of the general public. It would take too much space to give all the instances.

Horses and cattle were shown in large numbers. The horse ring never appeared to be more attractive, and was surrounded all afternoon by an admiring throng of both sexes.

Sheep were a large exhibit, and of good quality, and there were some prime porkers.

The show of poultry was a good one, both as regards quality and number. We have many bird fanciers in this neighborhood.

All the grain shown was good, except spring wheat, which, of course, was not his year up to the standard.

By an error in copying from the judges' book the list of prizes for apples was incompletely full. It will appear next week in full.

The display of fruit was very fine. Apples were particularly good. The special collection of thirty varieties by J. C. LeTouzel, of Cherrydale Farm, Colborne, attracted much admiration. The other varieties of fruit shown were well up to the mark, and in this department the judging was in skilled hands.

There was a profusion of flowers, and much taste was evinced in the arrangement of many of the bouquets and collections. The cut flowers made a magnificent display.

The garden vegetables would be hard to beat anywhere. There was close competition in almost every item, the potatoes and carrots especially being splendid specimens.

The home manufactures and dairy produce were well up to the mark. Mrs. J. W. Pearson, who took the first prize for bread, generously placed a loaf at the disposal of the editor. It deserved the prize.

The organ showed by Mr. Oke, of Clinton, deserves special mention for its completeness of arrangement as a musical instrument.

The number of entries was largely in excess of last year.

The receipts, notwithstanding the price of admission having been lowered, were considerably ahead of last year.
