A.P.C. Notes.

To-day Dr. Wakefield crossed to Bell Isle from Portugal Cove, where a day or two will be spent in the interests of the A. P. C. movement and where a lecture or lectures will be given.

In reference to the matter of spitting on sidewalks, we clip the following from a recent speech of Dr. Holbrook of Hamilton, Ont., upon the subject of tuberculosis in children:

"Nearly half the children who come to us in an early stage of pulmonary tuberculosis have come from families which give no previous history of the disease. In these cases some other cause must be assigned, and it is my belief that if this cause could be definitely determined it would be found in many of them to be due to careless spitting about the streets; the infection may occur from the sputum drying and becoming powdered and carried by the winds, the germs being then inhaled, or the adult who comes in from the street carries mud or dust on his shoes or her skirts, some of it being bacillus laden. Once this is deposited upon the carpet or floor it is a simple matter for the young child playing upon that floor to carry the infection to his lips."

The Glencoe From Sydney.

The S. S. Glencoe from Louisburg arrived here at 4.20 last evening via Port aux Basques. The ship brought 73 packages of mail and the following saloon passengers:—E. J. Brownrigg, J. F. Meehan, W. Gooch and ten in second cabin. Capt. Taylor reports the weather conditions in the Cabot Strait the hardest since he has been on that route. He was unable to get to Sydney last trip and was obliged to go on to Louisburg. On the return trip to Port aux Basques Capt. Taylor had to make a detour of 40 miles outside of Scatterie to get clear of the ice. Sydney Harbor is now full of ice and will not be clear till a strong southerly or south westerly wind supervenes.

Snelgrove-Burt Wedding.

A very pretty wedding was solemnized at the Gower St. Parsonage last evening by the Rev. Dr. Rogers when Miss I. M. Burt and Mr. A. Snelgrove were united in the bonds of holy matrimony. The bride was assisted by Miss Ethel Benson and Mr. J. Snelgrove supported the groom. The bridal party then drove to the residence of the bride's parents, 18 New Gower Street, where an enjoyable celebration of the event was participated in by the immediate friends and relatives of the contracting parties. At 11 o'clock the happy couple proceeded to their future home on the South Side, taking with them the best wishes of a large number of friends.

Shrubb's Latest.

Watertown, N.Y., Jan. 19.—Alfred Shrubb, English champion, won the world's championship last night by defeating Bill Queal, American champion, in a 10 mile race at the State Armory in this city. Shrubb's time for the 10 miles was 49m. 9 2-5s., breaking the world's record by over two minutes.

At the start Shrubb took the lead with Queal trailing. In the ninth lap Queal opened up with one of his famous sprints, but failed to pass his English rival. At the 16th lap Queal took the lead and was again headed by Shrubb at the 19th lap.

In the second mile Shrubb started out to lap the American and at the 19th lap was at his heels with one lap to the good. He then fell behind Queal and allowed him to set the pace.

Many times during the remainder of the event Queal started to sprint, but each attempt to gain found his rival at his heels. The race ended in a terrific sprint, in which Queal succeeded in recovering a quarter of a lap, but his rival finished easily at three-quarters of a lap in the lead. The time by miles is as follows:— 4.41, 4.48 2-5, 4.56, 5.03, 4.49, 4.54, 4.39, 5.07 4-5, 5.10, 5.01 1-5.

It would be surprising if it is not discovered that the track was short. Shrubb is a wonderful runner, but verification of making such fast time indoors on a small track what he has never duplicated outdoors will be awaited with interest. Shrubb, however, must have been in great form to defeat Queal in a 10 mile race by three quarters of a lap.

Drew the Line at a Murderer's Arm.

Paris, Jan. 26.—A well known French surgeon has a number of patients who have lost limbs and are willing to undergo the experiment of grafting of other limbs on their bodies in place of those lost. After considerably difficulty the surgeon obtained for one patient the promise of the left arm of a butcher named Renard, who was gullitinated last week. The patient for whom the limb was destined flatly refused to have a murderer's arm grafted on him. He declared there was no knowing what risk he might run and would prefer to continue with one arm rather than stand the chance of ruining his disposition by going through life with a criminal's arm.

CONVINCING

It is impossible for any argument in favour of Sunlight Soap to be more convincing than a trial of the Soap itself.

Huge Dock for London.

London, Jan. 25.—The Port of London Authority, which has control of all the docks on the River Thames, has decided to spend \$12,500,000 as the commencement of a gigantic scheme for bringing the port accommodation to London up-to-date. A new dock is to be constructed to the south of, and parallel with, the Royal Albert Dock. Tenders will be invited shortly and work will be started in the spring.

The new dock will be 4,600 feet long, 38 feet deep, with a total usable quayside of 82,000 lineal feet and a water area of sixty-five acres. The width of the eastern end of the dock will be 700 feet, tapering to 500 feet at the western end. The entrance lock will be 850 feet long, 110 feet wide and 45 feet deep on sills. The present Royal Albert Dock was opened in 1880 and was then considered the finest in the world, but the rapid growth in length and depth of steamers has materially reduced its value as regards modern traffic. That dock is also to be improved. Its depth is to be increased from 27 feet to 29 feet 6 inches, the upper lock entrance will be widened, the quays widened and a new dry dock added. These improvements will be additional to the big scheme above indicated.

Two Plunge 130 Feet.

One Steeplejack Slips, Drags Down the Other Who Tries To Save Him.

Philadelphia, Jan. 20.—Two steeplejacks fell 130 feet to death to-day when one attempted to save his companion who had slipped from a ladder on top of the North Broad Street Presbyterian Church. When the bodies hit the ground the hand of Herman Greenwald, 25 years old, was still clutching the overalls of August Johnson, 48 years.

When Johnson slipped he started to slide down the steep incline. As he rushed past Greenwald, who was on the ledge, the latter grasped but was unable to check the momentum.

Must Take a Chance on Marrying a Cork Leg.

Boston, Jan. 26.—Under an opinion by Judge White of the Suffolk divorce court, beaus and belles when marrying must run their chances of false teeth, imported hair and cork legs. The opinion was reasoned by Harry Soukow's recent annulment of his marriage on the ground that his wife concealed a deformity from her prospective husband until after the ceremony. Such defects, concluded the judge, are common to humanity and must be changed in contemplating connubial bliss.

Cut Orchid's Long Life.

A correspondent writes to Country Life, London: "I am sending you the enclosed photograph of a spray of the veteran blum phalaenopsis (orchid). It was gathered last year on September 23, and I wore it with few exceptions every evening till November 1. I then went on a visit into Hampshire, wearing it on the journey from Kent, and after a week there I wore it up to London, where I stayed for another week-end on Friday, Nov. 11, when it was seven weeks' old. I had it photographed for the express purpose of sending it to Country Life, as that morning it met with an accident and had to be wired. In spite of this, however, it still lived for another week, though its stalk was broken in two, and it kept its color and erectness to the very end."

Charity Day.

The Committee of Management for the Curlers decided last evening to set aside Wednesday next, the 7th inst., as Charity Day. A Bonspiel will be played to provide coal for the poor and the curlers will be asked to co-operate in the good work. The following gentlemen will be requested to act with the General Committee:—Messrs. R. G. Reid, J. S. Munn, J. W. Henderson, Hon. John Harris, John Browning, Hon. W. C. Job, F. T. Brehm, J. C. Jardine, W. R. Warren and Dr. Macpherson. The committee will meet this evening to arrange details. The captains of the four divisions will select the teams to compete in the games.

27 Passengers Injured.

KAMSAK, Sask., Jan. 23.—At about half past eight o'clock last evening when the Edmonton Express, Number 2, bound for Winnipeg was running on the next station east of Cote, the rear end plunged down a steep embankment as a result of the train leaving the rails. Twenty-seven are reported injured, but no lives are supposed to have been lost, although the condition of Conductor Murphy, who was in charge of the train is reported to be very serious.

CARS PILED UP. The train was running at the usual rate and had just left Cote a few minutes when a sudden jar disturbed the passengers. In a few minutes it was realized that the train was off the track and a moment after the rear end and the first and second class coaches and diner and sleeper swung down the embankment and took the ditch, the cars being piled up on their sides where they now lie a considerable distance from the track showing the force with which they left the track.

WILL PLAY WITH ST. BONS.—Jim Keating will fill Collins' place in the St. Bon's team in the match against the Crescents next Monday. He is an active lad on the ice.
