The Psychology of Noises.

BY RUTH CAMERON.

A masculine contemporary of mine has expressed the editorial wish that someone would write a good essay on the psychology of noises.

It is rather surprising with all the psychological articles we have been finding in our magazines lately that none of the literary psychologists have enlightened us on this interesting subject.

Everyone has noticed the irritating disturbing quality of some noises, and the comparatively inoffensive character of others.

The sound we have become accustomed to seldom distracts or disturbs us no matter how loud it is. Indeed its cessation is more apt to attract attention. I believe I have already told the story in these columns of the fishhouse keeper in whose bed room a bell connected with the light sounded every half minute. I asked him how he could sleep in that din, and he answered that the only thing which would disturb him would be to have that bell stop sounding. That would wake him from the soundest sleep.

On the other hand, an unaccustomed noise, no matter how light, will often place the thickest armor of concentration or even arouse a man from heavy sleep.

Noises which occur at regular intervals are easier to endure. I think, than a noise that keeps one guessing with its irregularity.

The slamming of a blind or the rattle of a door is trying even to comparatively steady nerves. One gets to listening and waiting for the thing that happens at night, the period of precious silence during which one might fall asleep, is usually consumed by

Household Notes

When making a mayonnaise in which only the yolks of eggs are used, the economical housekeeper will use the whites in a dessert, such as apple snow for frosting or for a meringue on a pie.

A sponge in a porcelain umbrella stand will keep the umbrellas from striking the bottom of the jar, which is often broken in this way, and will also absorb the rainwater from a wet umbrella.

Washing soda will prevent refrigerator drains from being clogged. Place lumps of it on the bottom lining of the refrigerator. It will sweeten the air of the refrigerator and keep the drain free.

If in separating the yoke of the egg from the white you should spill a little of the yoke into the dish of whites; use the egg shell to pick it up with instead of a spoon. The yoke will stick to the shell.

A bathing cap may be kept in good condition for another year by sprinkling it thickly inside and out with talcum powder before putting it away. It will prevent it sticking together and rotting.

Using a warm iron when cutting out clothing will do away with pins and weights on tissue paper patterns. Lay the pattern on the material and press it lightly with a warm iron. It will adhere to the cloth.

To prevent potatoes from sprouting when put away for use on the table, keep the potatoes in a tub of boiling water for five minutes. Pour water off and lay potatoes on boards one layer deep in a dry place.

To toughen glassware or lamp chimneys, immerse the glassware in cold water to which some common salt has been added. Boil well, then cool slowly. The glass will resist a sudden change of temperature.

The Kicker.

As a rule, man's a fool;
When it's hot he wants it cool,
When it's cool he wants it hot,
Always wanting what is not.
As a rule, man's a fool.

The kicker is a person who wouldn't be satisfied in Heaven, unless he could regulate the climate and lead the band.

Some people never kick, except at epochal periods, like a house-cleaning time, while others start before breakfast, and kick on everything from the texture of the pancakes to the way their bed is made up.

It is impossible to please the kicker who is impelled by a high sense of duty and a dark yellow grouch. This kind always wants a soapstone in his bed, on cold nights, and if he burns his feet on it he will decide it was slipped in between the sheets when he wasn't looking.

It is an established historical fact that William Cullen Bryant wrote "the melancholy days have come" im-

An Operation For Appendicitis

Was Ordered by His Doctor, But Complete Cure Was Effected by Dr. Chase's Kidney-Liver Pills.

Almost anyone who has suffered from appendicitis will assure you that this trouble developed only after months or years of derangements of the liver and bowels.

Appendicitis can almost invariably be prevented, and very frequently cured, by the use of Dr. Chase's Kidney-Liver Pills. In the case described in this letter the doctors had ordered an operation, but a thorough cure was brought about by this great medicine.

Mrs. J. A. Ballantyne, Sturgeon Falls, Ont., writes: "My husband was treated for appendicitis and the doctors ordered an operation. But he would not consent to an operation and began the use of Dr. Chase's Kidney-Liver Pills. Since doing so he has had no recurrences of an operation, or even of a doctor, as the trouble has completely left him. I cannot find words to speak our gratitude for this cure."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmundson, Bayes & Co., Limited, Toronto.

mediately after he had pawed several bushels of autumn leaves out of the eavespout with a whisk broom.

The kicker never admits that there will be more than one-third of a corn crop until along about Christmas time.

If the new minister chooses a text from II Kings, he will wonder why our preachers can't get out of the Old Testament once a year. If the german introduces an original thought or two, he will sigh for the old-fashioned preaching which you could follow without a guide book or a set of Emerson's Essays.

The kicker is at his best during the summer solstice. He is then able to kick in long, sustained high notes about the warm weather, and every change in temperature causes him to let go of a sour cackle. During the cold weather, he is prepared to show that the heavy winter of 1857 was a hot wave compared with what is just ahead.

The kicker teaches us that some people are never truly happy until they have made everybody about them miserable.

Lavative for Old People—Cascarets.

Salts, Cathart and Pills act on Liver and Bowels like pepper acts in Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

Indian Island Notes.

Mr. G. Moores, A.A.A. has taken charge of Perry's Island School. We wish Mr. Moores a successful year's teaching.

The codfishery is practically over for the season, and on the whole the catch will be an average one.

Messrs. Earle, Sons & Co.'s fish collector, which has a 50 h.p. engine, is here to-day taking fish. Three other schooners have loaded during the week and are now on their way to St. John's.

Mrs. Downer, wife of Thomas Downer, is at present very ill. Small hope is entertained for her recovery; friends are anxiously awaiting Dr. MacLean's decision.

"Molassine" Meal

Is as useful in Summer as in Winter.

"MOLASSINE" MEAL helps all animals to get greater nourishment out of their other foods and digest them.

Worms cannot exist in animals fed on "MOLASSINE" MEAL. It is therefore a necessity during the grazing season.

Good for: HORSES, SHEEP, COWS, CALVES, OXEN, LAMBS, PIGS, POULTRY

Try "MOLASSINE" DOG CAKES on your Dog.

The Surplus Earned.

In 1912 the Canadian Life earned surplus of \$1,530,667, exceeding by over \$237,000 the earnings of 1911, and by a much larger amount the earnings of any previous year. This is of importance to policyholders, for their Dividends must come from this account.
