in earnest. Another instrument has added its voice to the symphony, which is making its music audible in the Wilhelmstrasse, where it is not welcomed. Allenby is on the move again, and the Turks are moving perforce before him; the Serbians have got across the Cerna and are on the way to Prelips, their first important objective: British and Greek forces have won initial successes in the Doiran region: daily accretions are strengthening the forces of the different Allies in what might be called their recruiting stations in Russia and Siberia; and the meaning of it all is so plain that Roumania, imprisoned but unsubdued, is giving her gaolers ly that she welcomes the changed order of things. Yet, in the face of so many threats, Germany must further deplete her eastern garrisons to keep her western ones from being over-thigh, intestinal catarrh and Sepsis.

Putting aside for a moment the possibilities in Russia and Serbia-and Russia is now a volcano which may burst into tremendous eruption at any moment—the joint offensives in Macedonia and Palestine are the best possible news. They involve no extra demand upon the resources of the Allies: they are instead rather the belated employment of resources long ago 'locked up there. Allenby and Maude did brilliant work in the past, in the face of resistance by Turkey when that country had nothing else to occupy its attention. Now for the first time Turkey is attacked simultaneously from front and rear, for the Balkan attack, though at present confined to Serbia, is a more serious menace to her even than the losses of territory in Palestine and Mesopotamia. We may confidently expect news of active doing in the last named theatre before very long, when Turkey McMurdo's Store News.

So far as any of the disclosures concern Western Europe they merely add more counts to the already damning indictment but it is well that some of the truth about the Bolsheviki should be told openly and without further pretense The hands of the Allies have been far too long tied by the number of simpleminded persons who have ascribed the terrible work of these felons to ignorant and mistaken but sincere ideals, when it has had nothing else than German intrigue and German gold behind it. That sort of nonsense can no longer be indulged. It seems only a question of time when the Allies will openly and without formalities declare war on the Bolsheviki as German allies. DEFEAT BLS. 3-2.

Not since the grand old days of 1898 when the C.E.I. and Star battled for C.E.I. defeated the B.I.S., last year's the platform for the guests of honor. Excellency the Governor and Miss and a wealth of flowers donated from Harris, who were attended by Capt. ty were received by Mr. M. Chaplin, Campbell, A.D.C. The vice-regal parident of the League, Vice-President Higgins and Mr. P. C. Mars.

THE GAME. Play opened with the C.E.I. defending the eastern goal, and going west | Sergt. Joseph Squires, C.E.F.; Corps. paid Phelan a brief visit but found he was not receiving. Clearing the danger zone the Irish boys swooped down east and through F. Phelan town made an attempt to beat Lush, who given in play, and some of the nicest bits of the hour in no stilted fashion, and hungry and put up with it whilst the handed out to the fans. With the ball coming himself and his wife. This wins new honors and views with mawell in C.E.I. territory, Burridge and was followed by short speeches from Hennebury broke loose, and going up Capts. Keegan and Fox, who were war as he is pictured doing. Why field like startled fawns, with Stick, both agreed that to Capt. Butler no wait till this overpaid Premier Jerrett and Chafe as supports, sucten minutes after, the Institute boys, ed, and he had won the highest honrepeated the trick. This put vim in Regiment. Both were proud to call vant of this green country. the Irishmen's bones and for the next him friend. Then followed Capt. Butthe Irish and for the remainder of the half made several efforts to score. At the half-time whistle the teams

crossed C.E.I., 2; B.I.S., 1. Resuming play the Irish continued to push hard towards the land of the setting sun, but found the Institute dark clouds were shutting out the light. Tait and Reid being two regular fog banks. Getting down to business the C.E.I.'s combined nicely, and approaching the Irish goal rushed in old-time form (characteristic of the old Star team when Hux was in command) and notched up another counter. This was followed by a penalty kick against the C.E.I. which Burke misplaced, the ball going over the cross-bar. With the possible chance of still retaining the silver, the Irish attacked in mass formation, Phelan, Esq., and since his first conspicuous Burke, Kelly, Kavanagh and Brien doing excellent, their efforts being swarded by another counter. At this stage of the game the green and gold needed two more goals to win (a that he has won the highest honors. draw being of no advantage), they in the Regiment, and, though having put forth a strenuous effort to secure "walked with kings", has succeeded were taking no chances and through the wonderful work of Tait and Bob Stick, Hallett and Reid, beat off the Irishmen's numerous attacks. Coming back for a final effort, Capt. Jerrett's crew made an onslaught on the Irish goal tender and were making things hot when the referee, Mr. W. J. Hig-

gins, blew the final whistle, leaving the C.E.I. victorious and champions for 1918. The players were: C.E.I.—Lush, goal; Tait, Reid, backs; Hallett, Drover, Stick, halves; Chafe, R. Stick, Jerrett, Burridge,

Hennebury, forwards. B.I.S.-Phelan, goal; Duggan, Fox backs; Power, Rawlins, Thompson, halves; Phelan, Burke, Kelly, Kavanagh, Brien, forwards.

It is twenty years since the C.E.I. have won the championship, and they are to be congratulated, particularly as at the opening of the season they L. O. A. for the free use of their hall, had practically decided to retire from the League, but through the efforts of or in any way helped to make the rea few old-time players, entered a team for the sake of helping out the W.P.A. funds, for which the games were played. Estimate of Catch

The shore catch (dry) in Newfoundland to date including the Bank fish is about 650,000. Four weeks more fishing which is about the possibility ought to give us an additional hundred thousand, making a total of 750,000. The Labrador, which was very poor up to the 20th of August has been picking up well since, and will give us, we judge, by the close of the voyage, adding the Straits fishery about 270,000, which gives a total for dry of 1,020,000. There will be more salt bulk than ever this year, we estimate 250,000 qtls. This gives 1,270,-000. Add 30,000 quintals of fresh tha went into cold storage and we have a grand total of 1,300,000 quintals o cod fish for this season's catch, which shows a shortage of nearly half a mil lion quintals as compared with last year's catch. Prices, therefore, should rule high.—Trade Review.
