

CONQUERED.

Backache and Kidney Disease Conquered by Dr. Arnold.

Since Pasteur perfected his process of inoculation to prevent hydrophobia following the bite of mad dogs, or since the success of the new anti-toxin treatment for diphtheria was proved, the medical world has not witnessed so great a triumph as that which Dr. Arnold's Toxin Pills have won—and deservedly won. This is because they act in the only way that can result in curing disease. They simply kill the germs or microbes that cause the disease, and they counteract or sweep out of the system the poisonous products (toxins) of the germs. Now, as all diseases are caused by germs, it stands to reason that if the germs be killed the disease must come to an end.

J. Jones, 237 Elizabeth St., Toronto, says: "I have had kidney disease and bladder weakness for a long time. Suffered from gravel also. Took all the advertised 'sure cures,' but all failed. I tried Dr. Arnold's Toxin Pills which have made me sound and well in every way."

E. J. Howell, 83 St. David St., Toronto, says: "I endured the most intense agony from Bright's Disease during two years. All the medicine I took failed to help me, until I started taking Dr. Arnold's Toxin Pills. They effected a thorough and permanent cure."

Dr. Arnold's Toxin Pills, at all drug-gists, 25c a small box, 75c a large box, or sent on receipt of price by The Arnold Chemical Co., Limited, Canada Life Building, 44 King St. West, Toronto.

NOT IN FRANCE FOR HEALTH. It is Said Premier Waldeck-Rousseau and Premier Salisbury Will Meet.

Paris, April 15.—Doubts are expressed here concerning the ultra-favorable reports of M. Waldeck-Rousseau's health that have lately been circulated. It is asserted that if M. Waldeck-Rousseau feels himself sufficiently strong to undergo the fatigue of an interview, a meeting will be arranged to happen "by chance" between him and Lord Salisbury, the British Premier. Anticipations are near enough to Beaulieu, Lord Salisbury's residence in the South of France, to make such a meeting easy. It is believed that the British Premier is not in France merely for his health.

IT LOOKS LIKE THE END NOW.

Former President Steyn Calls on Boers to Surrender.

His Health is Reported to Have Broken Down and He Advises His Friends on Command to Give Up at Once—Who He Is—Boer Cause Now Lost in Court—Mules May Go to South Africa—Buller May Come to Canada.

Bloemfontein, April 14.—It is reported that the health of former President Steyn has broken down. It is also said that he has advised all Boers on command to surrender immediately. Martinus Theunis Steyn.

Martinus Theunis Steyn is ex-president of the Orange Free State. He is 54 years of age, and was born in Orange Free State. He received his education at Bloemfontein and in Holland. Afterwards he was called to the English bar (Inner Temple) and practised law in Bloemfontein. He won honor in his profession, and was raised to the bench. In 1896 he became President of the Orange Free State. He has been intimately connected with the Transvaal war, and it was his detection of the Orange Free State that has augmented the tussle in South Africa.

Invaders Badly Defeated. New York, April 15.—A Cape Town despatch to The Sun says: Midland farmers assert that 90 Boers were killed in the recent engagement at Jansenville. It is said this is the most crushing blow the Boer invaders have yet received.

Attempt to Steal from Kruger. Paris, April 15.—(5.40 a.m.)—L'Estafette publishes a report that an attempt was made to stab Mr. Kruger.

THE BOER AND THE MULES. Shipment of Mules to Africa Allowed by U. S. Court.

New Orleans, La., April 15.—Judge Parlange in the United States Superior Court on Saturday handed down decision dismissing suit for injunction brought by Boer representatives with a view to preventing the shipment of mules and horses out of the United States to the British army in South Africa.

What the Judge Holds. Judge Parlange holds that the transactions between citizens of the United States and the British Government were conducted under the order of private citizenship, and that the courts had absolutely no jurisdiction to interfere. The horses and mules, the court said, were bought in a neutral territory.

Judge Parlange continues: "If the complainants could be heard to assert their rights personal to themselves in the treaty invaded, and seeing the mules and horses involved in this case, and munitions of war, all of which is disputed by the defendants, it would become necessary to determine whether the United States intended by the declaration of the treaty of Washington, May 8, 1851, to subvert the well-established principle of international law that the private citizens of a neutral nation can lawfully sell supplies to belligerents."

It is almost impossible to suppose, a priori, that the United States would have done so, and would have thus provided for the most serious and extensive derangement of and injury to the commerce of our citizens, and more foreign nations should go to war, and would seem that there is nothing in the treaty, especially when its history and purports are considered, which would warrant that the United States insisted upon inserting therein a new principle of international law from which the greatest damage might result to the commerce of the country, and which was absolutely different from and antagonistic to the rule and policy which the Government of this country has heretofore strenuously and invariably followed.

"The principle that neutral citizens may lawfully sell to belligerents has long since been settled in this country by the highest judicial authorities."

CANADA WILL SHARE.

An Official War Office Says "Surely Canadian Beef is British."

London, April 15.—Canadian circles in London are considerably excited over the official announcement that the War Office has decided to exclude all but British beef from the supplies of fresh meat to be purchased for the army.

The question was put to an official of the War Office as to how this would affect Canada. He hesitated to pronounce an opinion until a case in point should arise, but pointed out that the announcement reads that "contracts shall be confined to British meat in future."

The comment of one official, high in the service, but speaking unofficially, was: "Surely Canadian meat is British."

DR. BOND TO SUCCEED. House of Bishops of Church of England Meets in Montreal.

Montreal, April 15.—The House of Bishops of the Church of England in Canada will meet here to-day for the purpose of discharging the most important function that falls to its lot, the election of a chief, who is dominated by the Metropolitan.

The Archbishop of Ontario, the Most Rev. Dr. Lewis, resigned at the close of the century, and his successor is to be chosen by the house.

It is understood that the bishops are unanimous in their determination to elect the Rev. Dr. Bond, the Bishop of Montreal, and the senior member of the Bench of Bishops, to the vacant position.

Twenty Cattle Cremated. Port Stanley, Ont., April 15.—A serious fire occurred at the farm of Mr. Albert Goodhue, about half a mile north of this place, at 8:30 o'clock yesterday morning. In some unknown way fire started, and in a short time his entire barn and out-buildings were in ashes. The fire was discovered by Mr. Goodhue in the cattle stable, but as the wind was blowing strong and the fire had such headway, 20 head of fat cattle were burned before any could be got out. Mr. Goodhue was fortunate to get all his horses out, with the exception of a fine yearling colt, which he had recently purchased in the market of which a new addition of 40 feet had just been completed last night, were his farm implements, wagons, buggies, etc., and over a thousand bushels of corn, all of which were destroyed.

Hair and Scalp Torn Off. Winnipeg, April 15.—Annie Fraser, a little girl of 11 years, was admitted to the hospital on Saturday. While she was engaged turning a cream separator in the milk house, her hair was caught by a revolving shaft and gradually twisted round. No one was at hand to render her aid. The entire skin of the head on which the hair grows was wrenched from the scalp, and she was afterwards found free from the machine. Saturday a long and critical operation commenced, lasting several hours, during the whole of which time the head will be held in contact with a living animal, until a portion of the skin of the latter is engrafted on the denuded scalp.

Buller May Come to Canada. Halifax, N. S., April 15.—Military headquarters here received a communication from England on Saturday stating that the name of General Buller had been mentioned in connection with the appointment of commander-in-chief of the Imperial forces in British North America.

Blood. We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood. This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it. Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child. If you have not tried it, send for free sample. Its agreeable taste will surprise you. SCOTT & BOWNE, Chemists Toronto. 50c and \$1.00, all druggists.
