According to the Post-Mortem Death | Annual Address of the President of the B. A. A. S., Sir John Evans.

> Toronto, Aug. 19.-The British Association for the Advancement of Science is now in full swing. Headquarters at University College were crowded. Lord Lister, the retiring president, presided usiness was transacted. The British Association was formaly received by the citizens in the afternoon in the pavilion of the Horti-

was attended by all the prominent members of the association and by a arge crowd of citizens. In the evening Massey Hall contain-

was a brilliant one. Lord and Lady Aberdeen were present, as also was Sir Oliver Mowat. Lord Lister pre ided, and in a short address gracefully handed over the chair to his successor Sir John Evans, who took the chair, elivering his address.

The speaker referred to the presence at the present meeting of the associa-tion of the sister association of the United States, and some other learned oddies, describing it as a feature of entire novelty and extreme interest. 'I need hardly say,' he went on, "how welcome their presence is, nor how gladly we look forward to their taking neeting the term 'international' seems almost misapplied. It may rather be which our relatives, more or less disand habits of thought, have spontaneously arranged to take part. Here, on the frontier between the two great English-speaking nations of the world, who is there that does not inwardly feel that anything which conduces to similar way.

an intimacy between the representa-tives of the countries, both of them Dr. Gardiner-I can safely say that actively engaged in the pursuit of the child was born alive. I don't think the child bled to death, because of the timacy react on the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and 42% bushels per section to the affairs of daily shrunken seed; and daily shrunk life, and aid in preserving those cordial relations that have now for so many years existed between the great threshing. The same number of with Coroner—Well, in a word or two, what do you consider the cause of death?

Dr. Gardiner—I should say the child died of suffocation or strangulation.

In answer to County Crown Attorney Magee, he said death was no doubt caused by the tightness of the cord around the neck.

Mr. E. J. Rumball, undertaker, told of having been sent for on Sunday night, Aug. 1. He brought the body of the child to his establishment from the house in a trunk; he placed it in a support of the child to his establishment from the house in a trunk; he placed it in a support of the cause of the many years existed between the great American republic and the British Islands, with which her hearty foundations are indissolubly connected. The present year has witnessed an interchange of courtesies which has excited the warmest feelings of approbation on both sides of the Atlantic. I mean the return to its proper custodians of one of the most interesting of the religion of the Pilgrim Fathers—the log of the Mayflower. May this return, trifling in itself, be of happy augury, as testifying to the feelings of mutual that have now for so many years existed between the great threshing. The same number of wintershing. PREVENTION OF SMUT IN WHEAT

An experiment in treating seed wheat for the prevention of smut has a concluded with the contents, and two wheat for the prevention of smut has a concluded with the contents, and two young couple departed for their future. Witness then explained the manner in which he handled the body. There was not much weight upon the cord, because he partially lifted it with his hands. The covering of the body was the covering of the body was the first introduced the word.

Of the antiquity of man, remarking that "probably no fitter place could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson, who first introduced the word area could be found for the prevention of smut has been conducted for two years with quite satisfactory results. Infected seed wheat not treating seed wheat for the prevention of smut has been conducted for two years with quite satisfactory results. Infected is a mystery. The origin of the discussion of such a topic than the adopted home of my venerable friend, the late Sir Daniel Wilson who first introduced the word area could be a conducted for two years with quite satisfactory results. Infected is a mystery when the conduction of the probability of the probability of the first place of the conducted for two years with q Glencoe's civic holiday will be observed today (Thursday), the day beng declared a holiday by Mayor mith. The attraction for the day is he picnic excursion to Port Stanley inder the auspices of the Glence a good time is looked for. Mr. Dugald Graham, who died at Springhill, N. Y., at the age of 60 years, the other day, was born in the county of Middlesex in 1837. He took

successive stones will be brought for building up the temple of knowledge, The water should not go below 130 and tered active business life. For third the stone of the stone university course, and at once enteen years he was manager of the Williams Manufacturing and was a director for nerly 20 years, In Westmount and Montreal real estate he had large interests. He was an honored member of the Montreal board of trade, a governor of the general hospital, a member of the sen-ate and board of governors of the Wesleyan Theological Seminary, and took an untiring interest in all these nstitutions. Mr. Graham was a life long adherent of the Methodist Church.

ARKONA.

The groom was good wishes of their many friends. ents of a number of useful and valuable presents.

OUERIES ANSWFRED.

W. C .- I hired a man for a year. At the end of nine months I hired him for another year at the expiration of have rented and I wish him to stay But he has since hired with another will owe him \$50. Can I oblige him to stay the second year or retain any money? Ans .- Not upon the facts stated, as his hiring for the in writing, and not to e performed within one year from its making

If we told you that your baby was starving, that it actually didn't get enough to eat, you might resent it. And yet there are thousands of babies who never get the fat they should in their food or who are not able to digest the fat that they do get. Fat is a necessity to your baby. It is baby life and baby beauty. A few drops of Scott's Emulsion for all little ones one, two and three years of age is better than cream for them. They thrive and grow on it.
