baby's presence, to express my opinion as to that matter to the the that matter the third better the third the third better the third better the t

WM. GARVEY.

Mr. Wm. Garvey, of Morrisburg, Ont., is clerk of the Division Court, and one of the most respected and best-known men in Eastern Ontario. Some time ago Mr. Garvey's condition of health was alarming and critical. His case was one that demanded prompt and careful treatment. Experiments were out of the question; the gravity of his condition required the best and most effective measures that science could device. With great decision and wisdom, Paine's Celery Compound was used, and here, reader, observe the grand results! Mr. Garvey's joyful confession fully explains the work accomplished; he says: "I am completely restored."

Mr. Garvey writes as follows for the benefit of all sufferers:

"It is with great pleasure I add my testimony to the merits of your popular remedy for nervousness and general broken down condition of the body. I could not sleep nights and had no appetite to eat. I commenced to obtain help from the first bottle used; and after using ten bottles of Paine's Celery Compound, which I bought from F. B. Carman, the well-known druggist here, I must say I am completely restored. I cheerfully recommend all to use it who are in a bad condition, assuring them they will/certainly receive help from its use.

WM. GARNEY,

"Clerk of Division Court."

sociation, paid a visit on Thursday to the Dairy School and Agricultural College, Guelph. The gentlemen, who are all practical dairymen, were loud in their appreciation of the good work done, both at their dairy school and college, and feel that they cannot urge too strongly upon all chesses and butter makers the importance of attending such a school, and obtaining by the practical methods adopted there all the latest information relating to the testing of milk, the making of fine butter and cheeses, and the general knowledge relating to the caring for and feeding of dairy stock.

The dairy school is under the direction of H. H. Dean, the popular professor of dairying at the college, who has assisting him Mesrs. Bell, Miller, Palmer, Linfield and Rogers—all thorough and practical men in their own departments.

The dairy sudents are having their examinations this week, and express themselves as well pleased with the term's work and feel that they will go back to their respective factories better equipped and better able to carry on their work and make it a success.

After spending a couple of hours at the college, and Mr. Palmer, and shown as through the other departments of the college, and of the show that care and good judgment have been exercised in fitting up each one so ag to make its work as practical and thorough as possible and of the greatest benefit or those who attend.

When the various branches of the college, and Mr. Palmer, and shown and thorough as possible and of the greatest benefit or those who attend.

When the various branches of the college, which all the serious departments of the college, and the first phase the mild the party were entertained to luncheon by President and Mrs. Mills, and left for home with the greatest benefit or those who attend.

When the various branches of the college work had been examined, the party were entertained to luncheon by President and Mrs. Mills, and left for home with the greatest benefit or those who attend.

When the various branches of the college with "Quadrants" Are "Up to Date."
What constitutes an "up to date" cycle?
We answer in a nutshell: Strength, light-

selves as well pleased with the term's the Maryland Church Board.

The Board of the Methodist Episcopal Church of Mount Verson Place. Hagerstown, Maryland, has according to the Baltimore with the proceedings of the Baltimore with the proceedings of the Baltimore with the proceedings of the Baltimore, who excived a unanimous call to the pastores of the band's resolutions to it. The following are a couple of clauses in the series of the board's resolutions:

That the board in view of all these off-cumstances, cond have claused. The following are a couple of clauses in the series of the board's resolutions:

"That the board in view of all these off-cumstances, more regretifully than they wan express, are obliged to reneunce their unanimous chiefe for paster. While insighting upon their right to indemnify Mr. Lanceley for all financial loss or express occasioned him, they cannot refrain from expressing at the same time their profoundest admiration for his unexceptionable conditions of the conditions of the conditions of the series of the conditions of the condit

ALKALINE TREATMENT

All Schools of Medicine are taught that there can be but two causes of disease, Acids and Alkalies, and where there is one case of alkalinity there is a million of case of alkalinity there is a million of acidity. The Alkaline Treatment discovered by Professor Brunton, the Canadian Chemist, neutralizes the acid which is the cause of every known disease. Stimulates the blood vessels, restoring circulation. Rheumatism, Catarrh, Psralysis, Eczema, Sour Stomach, Kidney Troubles, Indigesticn, Debility, any form of Blood Foisoning, etc., are treated successfully. There are two preparations, internally to purify the blood through the stomach, externally to absorb the impurities through the pores of the skin; they are each 50c. Any information free, either by letter or personally. PROF. BRUNTON, Office 1,208, Masonic Temple. Chicago.
