

For Women

Hood's Sarsaparilla is Especially Adapted to Cure Difficulties Peculiar to the Sex

The restoring and invigorating properties of Hood's Sarsaparilla, combined with its power to vitalize and enrich the blood, render it peculiarly adapted for all troubles peculiar to women, such as irregularities of the menstrual system, or any other condition of the system, or any other condition of the system, or any other condition of the system.

PRESS AND PEOPLE.

THE OLD HOMESTEAD.

My grandfather's farm yet how well I remember it.

Its joys and its pleasures, forgetting each other.

The winds whistling round the old house in December.

The perfume of lilacs and roses in spring.

When long, busy days brought hard work's richest blessing.

The night's dreamless sleep which tired Nature renews.

And now lapped in ease, I cannot help confessing.

Such rest my soft pillow doth often refuse.

Through long months 'twas plowing and planting and reaping.

When I was a lad growing up on the farm—

In winter, chores, chopping, and all things snug keeping.

Made hands much too busy for trifling or harm.

But evenings when round the bright fire we were sitting.

How sweet were our homely and innocent joys.

"Grandma's" telling stories, "Grandma's" with her knitting.

Nice books, too, or apples and nuts for us boys.

Then "Grandpa" would call for the worn Bible olden.

And dear "Grandma's" needles would stop and their click, click,

While there fell on the ear the Scripture's words golden.

With beat of our hearts and the clock's solemn tick.

All through the long night from snout of alarm.

Petitions with praise and thanksgiving so blended.

Brought sweet slumber and peace to the old Homestead.

THE DIGNITY OF LABOR.

See what room the Lord makes for lowly workers.

In paradise itself he gave the first man the post of gardener.

When he himself comes into the world it is as the little babe, wrapped in the swaddling clothes, and when he comes to be a man he is known as the carpenter.

He seems to choose the lowly things of the earth for his service. His disciples are fishermen. He hides them consider the fowls of the air and the flowers of the field, as if he made these his daily-appointed preachers.

It is the grain of mustard seed that is the emblem of the kingdom of heaven and the heaven of heaven in the meal. When the disciples were quarreling as to which of them should be greatest, he takes a child and sets him in their midst—the little boy with great wondering eyes looking into the Master's face and the disciples bending around him, the Master's arm about the lad as if it were his own—"Fear not!" If they would be great, they must become as this little child, and thus should they enter into the kingdom of heaven. The Lord does not want splendid workers so much as he wants simple and loving souls that are altogether given up to him. It was the song of the little children that he would not suffer to be silenced, and it was the mite of the poor widow that he commended more than all the golden gifts of the rich. Our Master has a wonderful eye for the service of the little and the lowly.—(Mark Guy Pearce).

THE ALERTS WIN.
The second district championship game was played at Kensington Park Saturday afternoon between the Alerts and Stars before a good crowd. The match was one-sided until the last inning, when the Stars almost overcame the lead of their opponents. Doc Sheppard, the erstwhile crack pitcher of the old Toronto International League team, twirled for the Stars. His past reputation did not overawe the Alerts, who hit him freely. Hynd and Plaver were particularly ready with the stick. Shears, on the other hand, pitched a steady game except in the ninth, when through a combination of errors, hits and loss of the Stars made no less than 7 runs. The most brilliant plays were those of Hutchinson, who lined out a beautiful three-bagger and also made a marvelous catch of a long fly from Sheppard's bat. In doing this his hand was jammed against the fence and bruised. Sheppard made three smashing hits, but unfortunately for the Stars neither of them counted. One was the long fly above referred to, and the other two immediately preceded it—both balls (foul) going over the fence and into the river. Score: Alerts, 10; Stars, 9.

crowded him, however, and passed Stambury, but he in turn gave way to Gandaur. The sprint was lively on the last dash. Peterson and Stambury sprinting alternately. Gandaur having gotten the lead kept well to the front and reached the safety line several lengths ahead of Peterson and Hanlan. This race was a record-breaker, having been rowed in 19:06.
