

## CLAIMS 10-MILE LIMIT FAVORED

Reeve Dromgole of Dunwich  
Criticizes Gill-Netters' De-  
mands For Change.

Declares Concessions Now  
Asked of Department Not  
Justified.

Special to London Advertiser.  
ST. THOMAS, April 11.—That  
the ten-mile fishing limit on the  
north shore of Lake Erie, west of  
Port Stanley, was fixed by the de-  
partment of mines and fisheries at  
Toronto, at the request of the Lake

## Roads Committee of Kent County Plans Big Year's Building Program

Special to London Advertiser.  
CHATHAM, April 11.—Provided  
that the Kent county roads com-  
mittee is successful in obtaining ade-  
quate supplies of road material, ap-  
proximately thirteen miles of con-  
crete roads will be laid in the county  
this year.

W. G. McGeorge, chief of the en-  
gineers' department of the county,  
stated today that plans for the con-  
struction work are almost complete  
and will be in readiness when the  
weather conditions are such that

actual work can be started.  
Present plans of the commission  
call for the completion of the per-  
manent road from Chatham to Pain-  
court along the river road and Pain-  
court road; the paving of the Chat-  
ham-Dover townline from the 2nd  
to the 4th concessions; five miles of  
pavement to complete the permanent  
road between Wallaceburg and Dres-  
den, and the completion of the pave-  
ment between North Thamesville and  
Wabash, approximately two and a  
quarter miles.

seeking to have a five-mile limit on  
the whole of the north shore.

Mr. Dromgole charges that Ex-  
Warden N. S. Cornell, of Port Stan-  
ley, who went to Toronto last week  
to lay the claims of the gill fisher-  
men before the department, was a  
member of the association at the  
time the ten-mile limit was fixed, and  
knows the full facts of the case.

At the time the change was made,  
Mr. Dromgole said, there were just  
two gill-net licenses issued west of  
Port Stanley, and the waters west of  
Port Stanley were closed for re-  
stocking purposes. Absolutely no  
fishing of any description has even  
been allowed in that section. In  
exchange for open-water privileges  
in the west end of the lake, the gill-  
netters willingly conceded the ten-  
mile limit, asked by the pound-net-  
ters. There was no trouble at the  
time and no opposition and Reeve  
Dromgole expressed surprise at the  
present attitude adopted by the Port  
Stanley gill-netters.

## 5,000,000 YEARS AGE OF ROCKIES

Cataclysm That Produced  
Great Western Mountains  
Destroyed Dinosaurs

### MAMMALS FLED SAFELY

Alberta Richest Province in  
World For Prehistoric  
Animal Fossils.

CALGARY, Alta., April 10.—Five  
million years ago the Rock Moun-  
tains were pushed up, the huge din-  
osaur, who had ruled Alberta for  
many years without challenge, per-  
ished, and, lo, the little warm-blooded  
mammals who, through fear, had  
existed in concealment since their  
origin, were able for the first time  
in their lives to come out into the  
open and start the long line of evo-  
lution which has culminated in  
the super-animal production, man.  
Every page in this wonderful and  
fascinating story of animal origin  
in Alberta was unfolded and inter-  
preted to the Canadian Club by Pro-  
fessor P. S. Warren, of the Univer-  
sity of Alberta, who delivered an in-  
teresting address on "The Animals  
of Alberta—Past and Present," here  
recently.

Describes Dinosaurs.  
Describing the pre-historic din-  
osaurs, Prof. Warren said the diplo-  
doc, which was about 80 feet long  
and weighing several tons, was the  
largest of these reptiles. The fact  
that the reptiles "specialized" in  
size, and the fact that nature hates  
anything specialized, caused their  
extinction, explained the professor.  
When the cataclysmic disturbance  
which attended the upthrusting of the  
Rocky Mountains occurred, the mas-  
sive animals, with poor and slow  
equipment for locomotion, had either  
to get out of the district or perish—  
and not being able to get out, they  
did perish completely, without leav-  
ing a descendant to carry on in the  
scale of evolution. At that same  
time there were also alligators and  
tortoises, but these reptiles did not  
"specialize" in size, and they there-  
fore got out, with the result that  
there are many members of their  
species remaining today.

It was at the time of the extinc-  
tion of the dinosaur that the mam-  
mals which are the ancestors of all  
the animal creation today, first came  
into their own. These mammals,  
warm blooded and swift of foot, em-  
bodied more speed than any other  
animal of that day, and they were  
seldom seen by the larger animals.

Deductions Interest.  
Some interesting facts are brought  
out in studying the trend of evolution  
which the descendants of these mam-  
mals have taken, said the speaker.  
For instance, it is hard to believe, but  
true, that an animal existed in the  
ancient days embodying the com-  
posite characteristics of the camel,  
deer and pig. The horse at that time  
was the size of the present dog, and  
it came from the same source as the  
rhinoceros.

Man, declared Prof. Warren, rep-  
resents the very last of the series of  
evolution that have taken place in  
the animal world, although he came  
into being only a few thousand years  
ago.

Alberta has a right to be proud of  
her field of fossilized remains of these  
prehistoric animals, he said. In pre-  
vious years these remains were re-  
moved from the bad lands and taken  
to all parts of the earth, except to  
points in Alberta. Fortunately, how-  
ever, the province has now started  
a museum of its own. Alberta stands  
pre-eminent in the production of  
animal fossils, and there is no  
greater range of material for evo-  
lutionary research in the world than  
that which exists in this province, he  
averred.

## TO ISSUE CALL TO SEAFORTH PASTOR

Special to London Advertiser.  
LISTOWEL, April 11.—At the quar-  
terly official board meeting of the  
Listowel Methodist Church tonight it  
was decided to extend an invitation to  
Rev. E. W. Edwards, M.C. M.A., D.D.,  
of Seel River, to preach at Seel River,  
who has accepted an invitation to Blenheim. Rev. Edwards served four years  
in the great war.

## World News CUT SHORT

ATHENS, April 11.—Ten more ac-  
cused of having plotted the assas-  
sination of Jean Dragoumis, former  
Greek minister to Petrograd, on Aug.  
14, 1920, have been tried in the court  
of assizes here. Five found to have  
had guilty knowledge of the plot  
have been condemned to life im-  
prisonment. Two others were sen-  
tenced to twenty years of detention,  
and three were acquitted.

GENEVA, April 11.—As Former  
Empress Zita of Austria-Hungary  
has expressed a wish to reside with  
her children in the Chateau Wartegg,  
the property of the Duke of Parma,  
situated in Switzerland, the council  
of ambassadors has requested Switz-  
erland to grant her the necessary  
permission. The Swiss government  
is considering the matter, but it is  
said that before acquiescence is  
given it will require assurances that  
Zita will not enter into any intrigues.  
Zita has stated that the climate of  
Madeira does not agree with her and  
her children.

BUENOS AIRES, April 11.—Ad-  
vices from Rio de Janeiro, Cape  
Verde, state that the departure of  
the Portuguese aviators for the Am-  
erican continent is still uncertain.  
They have asked the Brazilian gov-  
ernment to keep them informed of  
atmospheric conditions. Accordingly,  
the observatories in Northern Brazil  
are wirelessly observations every  
four hours and will continue to do so  
until the flight is resumed.

The Brazilian destroyer Para was  
sent to Fernando Noronha to assist  
the aviators. The Portuguese gov-  
ernment has ordered the wireless  
station at Noronha to send the first  
news of the arrival to Lisbon.

CHERBOURG, April 11.—The  
Cunard steamship Mauretania arriv-  
ed yesterday from New York, having  
made the trip from the Ambrose  
Channel Lightship, 3,811 miles, in 5  
days, 10 hours and 5 minutes, which  
is declared to be the fastest time  
recorded by any transatlantic vessel  
since the beginning of the war in  
August, 1914.

LONDON, April 11.—Thomas J.  
Macnamara, minister of labor, de-  
clared in the House of Commons that  
under the new unemployment insur-  
ance plan £60,000,000 could be paid,  
if necessary, by June, 1923. Of this  
amount, he said, the government  
would furnish £15,000,000, and con-  
tributions of employees and employ-  
ers would furnish the balance.

SOUTHAMPTON, April 11.—"A  
wonderful people," was Mrs. Asquith's  
statement to newspapermen as she  
disembarked from the steamship  
Mauretania, returning from a lecture  
tour of Canada and the United  
States.  
Mrs. Asquith declared that she en-  
joyed every minute she spent abroad,  
although she did not contemplate re-  
turning. Prohibition, she asserted,  
was the only fraud she found. She  
said the prohibition law worked most  
unfairly between the rich and poor.  
When informed that many people  
expected her to lecture on her ex-  
periences, she replied emphatically:  
"Well, they will be jolly well dis-  
appointed."

Asked if she was going into poli-  
tics, she replied:  
"What is my husband but a politi-  
cian? He isn't a jackass. I've been  
in politics all my life. You don't sup-  
pose I'm going on the stage, do you?"

TOKIO, April 11.—Viscount Uchida,  
Japanese foreign minister, in a state-  
ment published in the native press,  
has failed to confirm the report of an  
agreement at Dairen between repre-  
sentatives of the Far Eastern Repub-  
lic and Japanese delegates. He ad-  
mitted that the Siberian problem  
must be solved promptly.

He declared that if the Japanese  
troops were withdrawn Japanese  
residents must necessarily follow. He  
added that this would work no severe  
hardship upon them, as they had been  
doing very little business. The for-  
eign minister was emphatic in his  
declaration that the Korean frontier  
should be carefully guarded against  
Bolshevik attacks.

He gave assurance that Japan  
would act in concert with the Allies  
at the Geneva conference in giving aid  
to Russia, but said that Japan would  
demand strict payment of Russia's  
debts to his country.

## BOYS FIND TARGET IN HYDRO LIGHTS

CHATHAM, April 11.—Five boys who  
used ornamental hydro lights as targets  
for their sling shots appeared before  
Magistrate Arnold in the city juvenile  
court this morning and were re-  
primanded. The sling shots were con-  
fiscated.

## Logan Farmer Following Storm Ferries From House To Barn.

Special to London Advertiser.  
MITCHELL, April 11.—Two  
inches of rain fell in this  
district from 12 o'clock on Tues-  
day morning. The River  
Thames rose to above the high-  
water mark, and many cellars  
in town had from six inches to  
two feet of water in them.  
There were threatened wash-  
outs of two culverts between  
Mitchell and Stratford, and  
conductors received orders to  
travel at a speed not greater  
than eight miles an hour over  
this section of the road.

A number of culverts in Pul-  
larton Township were washed  
away, and the big drains in  
Logan, north of Mitchell, were  
filled, the water running over  
the roads. Low-lying fields  
were like small lakes, and one  
farmer had to use a rowboat in  
order to reach his barn.

## STYLE HEADQUARTERS

Newest Styles  
Fine Quality  
"Burley"  
Hats

## The Price May Be Less Yet The Cost May Be Higher

When your car is in need of repairs  
be sure to take it to a first-class  
garage, where first-class mechanics  
are employed and where your sat-  
isfaction is guaranteed.

Their rate per hour may be more,  
but you will find that it pays in  
the end.

Your car is a delicate piece of  
machinery and it does not pay to  
allow others to experiment with  
it.

All our work is inspected by an  
expert after being completed by  
first-class mechanics, and we guar-  
antee you will be satisfied.

When in trouble give us a call.
