There is every indication that large numbers will proceed to Canada in the spring. The Elder-Dempster Line has promised reduced passage rates. The High Commissioner has also organized a series of Canadian lectures up and down Britain for this winter, illustrated picture slides. A surprisingly large number of applications have been received from schools and institutes and clubs eager to know more of Canada.

THE PACIFIC CABLE. The Pacific Cable Board is rejoicing over the news received this morning that the last link in the cable was completed at Suava, Fiji, at three o'clock yesterday afternoon. Congratulatory messages are now passing between the British, Canadian and Australian Governments. The King received a message at Buckingham Palace to-day from the crew of the cable ship Anglia. General cable traffic begins at the end of the year. The fly in the ointment is the knowledge of those behind the scenes that the operation of certain of the Australian Governments to place the Pacific cable at a disadvantageous position in comcific cable three years' life only before it will cease to be a State concern and become absorbed in the Eastern
