THE SAINT ANDREWS STAN. RD

ing received their instructions, and made preparations for the expedition, immediately repaired to the point designated, and with zeal and fidelity continued in the performance of their duties assigned them, until the severity -transmit to you, will be read with interest and satisfaction. By that it appears, that the north west angle : that the base of the country rises constantly and regularly from the monument, at the head of the St. Orwix to the angle, which is from two to three thou stud teet above the level of the sea, and more than 5 hundred teet higher than the Kedge-wick, one of the streams running into the Bay of Chalcur near the said angle and the St Lawrence waters, that the due north line, if communed to the valley below the N W. angle, accusily strikes the St. Lawrence waters, that the country is high, and even And the, e is mountainous about this spot. no difficulty in tracing a line westwardly along distinct an! well defined highlands, dividing waters according to the words of the treaty. The extensive and correct map of the north part of our State and southern por-tion of Canada, and the vertical section, as prepared by Mr. Parrott, the Surveyor, with nestaess and accuracy, which ac mpany the report, add much to its value and miterest. Taken together they exhibit the true character of the country, and leave little or nothing to be desired illustrative of it. Kent alterwards remarks-" In this communication, I have confined

cause her clarms to be respected, by unter-miting righting righting preseve rance. The une for mere abar ract disputs-tions, upon the questrin of right has passed. If itsels and arguments can ever establish any position our right is established, to the ested men. It now remains only to asser-and enforce it, practically and efficiently, to demand that justice and protection which, is due fron the General Government to a men-ber of the Union, and tomaintain, inflexibly, our right is the Least Governor, scored by right in the possession and jurisdiction of our whole State, according to the treaty of 1783 70of 1783 "

In the Senate on the 4th, the Committee who had been appointed to examine the returns of the last election for Governor, made their report, when is appeared that John the Volumeer and Royal Arillery, Fairfield had received 2333 votes more than When arilved at the Conacil Chamber. all the other candidates, and was therefore IIIs Excellency commanded the attendance elected. Mr. F. baving been officially in formed of the result on the day to lowing as to open the session with a Speech, that emsumed the duties of the office and communi-) braces a number of important su jecis, which cated his message to both branches of the are at once brought an Legislature.
