Miss Yveta Jackson returned on Tuesday from a two months' visit with relatives in Boston.  
Mrs. Lester, a former resident of Clarence, but now living in Hantsport, is visiting friends here.  
Singing seems to be quite the order of the day. One was held at Capt. J. Corradi's last week and at C. H. Jackson's on Thursday evening.  
Rev. W. S. Smith gave a lecture in the vestry on Thursday evening, illustrated by lantern slides, showing views in India and Bolivia where many of our missionaries are stationed. He was assisted by Frank Balcolm, of Paradise, who operated the lantern. Sixty views were shown and pastor Smith expects to procure more slides and will give as the benefit again in the near future. Silver collection taken at the close.  
The funeral of Mr. Joseph Hirtle was held from his late home on Monday morning. The service was conducted by Rev. W. S. Smith. A large number of friends gathered to pay their last respects to the departed. Mr. Hirtle had been in poor health for some time, so his death was not wholly unexpected, the sad part of his sickness being that the last few months he lived he became blind. This was patiently borne and he was heard to say to a friend, "Which ever way it goes it is alright." Although not a member of our church he was a Christian, and he, with his wife, were always, while health permitted, faithful attendants at the church services. He was a kind husband and neighbor and will be much missed. The remains were taken to Bridgewater and there laid to rest on Tuesday. Mrs. Hirtle and pastor Smith accompanied the body. Much sympathy is extended to the bereaved widow, the aged father-in-law and other relatives.

**STORMY WEATHER HARD ON BABY**  
The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given to the baby to keep its stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers, or by mail at 25 cents a box, from "The Dr. Williams' Medicine Co., Brockville, Ont.

On Saturday evening over thirty people, young and old, gathered at the home of Mr. and Mrs. Alfred Marshall. The evening was spent with singing and games and at a late hour the folks left for their homes apparently having enjoyed themselves.

We hope THE MONITOR will still continue under the next management as it has been since he took it over.

**ADVENT OF WINTER**  
(Minna Erving in N. Y. Herald)  
Take the scarlet hammock down, put the window screens away, Bring the winter chuffs inside and the flowery cushions gay, Stow the jointed fishing rod pack by the camping outfit, too, Cover up the motor boat, snugly house the light canoe, Nail a lot of winter strips all around the little cracks, Fasten shabby window panes tight with putty and with tacks; Clear the cranies where the wind may come creeping in at night, When the wind is slanted with ice and the hills are robed in white.

MADAM SLOAT

**PENTH JUNCTION, N.B., Jan. 22nd, 1920**  
"For many years, I was a great sufferer from Indigestion, Constipation and Rheumatism. My Stomach was weak and gave me constant distress, while Rheumatism in my joints made me almost a cripple, was treated by two different doctors but their medicine did me no good.  
Then I tried "Fruit-a-lives" and at once that fruit medicine helped me. Soon the Constipation and Indigestion were relieved and the Rheumatism began to go away, and in a few months entirely disappeared. For twelve years now, my health has been first class and I attribute it to the use of "Fruit-a-lives" which I take regularly."

**QUESTIONS AND ANSWERS ON FORESTRY**

(By Canadian Forestry Association)

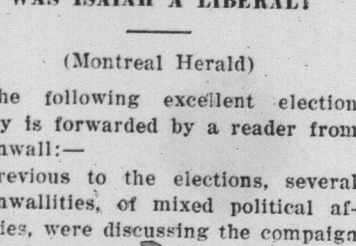

**Q.** As a resident of the Prairie Provinces I would like to know something about the Forest Reserves, their purpose, extent, etc.  
**A.** The Forest Reserves of the Prairie provinces are 39 in number and nearly 35,000 square miles in extent. They are owned by the Dominion Government and while called "reserves" are actually put to many and varied uses. They are of supreme value as storage capacity for the flood waters of the great prairie rivers. Practically the whole of the Eastern slope of the Rockies is now in reserve, and upon this slope being kept under forest depends much of the fertility of the prairie country. The timber on the reserves is viewed as a growing crop held in trust for the people of the West. It provides timber and fuel for settlers and on the grazing lands within the reserve boundaries more than 100,000 head of stock obtain sustenance. Game hunting and recreation are other excellent uses of these forest reserves of the prairie provinces.

**Q.** I am told that in the aeroplane forest surveys last year there was not a single fatal accident. Is it true?  
**A.** Almost. In 181,000 miles of flying by the Dominion Air Board last summer, only one man was killed and that was distinctly his own fault.

**Q.** Is it a fact that Canadian more forest products to Uncle Sam than from other countries?  
**A.** In 1920, Canada's sales of forest products to the United States represented 88 per cent of Canadian population. Our agricultural sales to Uncle Sam were only \$5.90 per head. Our mineral were \$4.50 per head and fisheries \$2.10 per head. The forests of Canada have undoubtedly been the greatest power in stabilizing the exchange rate.

**Q.** Has anyone managed to get Henry Ford interested in the practice of forestry?  
**A.** Some one evidently has. Mr. Ford is now a Forester, along with his other duties. He has bought a forest and is starting a system of scientific management that should keep the timber crop reproducing for all time to come. It is in Michigan near his iron mines. Mr. Ford recently stated that he is convinced that the public interest demands a fundamental change in the management of our forest wealth.

**IS W. ISAAH A LIBERAL?**  
(Montreal Herald)  
The following excellent election story is forwarded by a reader from Cornwall:—  
Previous to the elections, several Cornwallites, of mixed political affluities, were discussing the campaign over the tea-cups, and opinions were freely exchanged.  
One lady, a close Bible student, remarked, that outside of all that had been said, Liberals had no less an authority than the Bible itself for their political faith. "The prophet Isaiah was a Liberal," she added. This aroused a storm of protest, but the Liberal lady stuck to her guns, and the good book, being produced, the text was read as follows:—  
Isaiah 32: viii:—"But the liberal deviseeth liberal things, and by liberal things shall he stand."  
It would also appear that the wise old prophet foresaw women suffrage in the verses which immediately follow:—  
"Rise up, ye women that are at ease; hear my voice. Ye careless daughters; give ear unto my speech. Many days and years shall ye be troubled, ye careless women."  
There was no gainsaying the authority, and the discussion came to an abrupt close. Whether any voters were influenced is an open question. It takes more than a Bible text to interfere with hereditary prejudices.

**Edison Artists are GREATEST**

OTHER artists may rival Edison artists in concert hall and opera. But never in the home. Their performances lose too much in the reproduction. Edison artists sound on the New Edison, exactly as they sound in actual life. Tests of direct comparison have proved that there is no difference between living performance and RE-CREATED performance.
