TO PROTECT FOREST WEALTH

Mr. Barnjum Engages Chief Forester And Will Start Nursery For Benefit of Farmers And Land Owners.

Nova Scotians interested in the handling and conservation of the timberlands and woodlots will, as a result of the efforts of Frank J. Barnjum, have the benefit of expert advice on this vitally important question. Mr. Barnjum has, on his own account, engaged O. Schierbeck, formerly chief forester for Price Brothers, Quebec.

Mr. Schierbeck, who is a Dane, was the winner of Mr. Barnjum's \$5,000 prize, which was open to world competition, for the best method of suppression and combating the spruce budworm, bark beetle and borer. This treatise was printed and given free distribution by Mr. Barnjum and it is now to be found in the libraries of all forest schools on the continent. Mr. Schierbeck is one of the best equipped foresters in North America, as in addition to his high qualification as a forester, is a forest insect entomologist and has had a wide experience in nursery work and planting and seeding for reforestation, in addition to being a practical woods operator, and fire prevention expert, as well. Nova Scotians should feel greatly encouraged in having a man of such outstanding ability and attainments located in the province.

Mr. Schierbeck passed his examination at the University of Copenhagen, Denmark, after a seven years' course in forestry and since graduating has had 19 years' experience in practical forestry, of which eight years was with the Danish Government Forest Service, eight years being spent in Canada, the past four years of which as chief forester for Price Bros. Company, Quebec, one of Canada's largest, most successful and progressive paper companies, whose limits are equal in extent to one half the area of the entire province of Nova Scotia.

During his employment with Price Bros., Mr. Schierbeck has had full charge of all fire protection on these vast limits, giving him a large experience in this now all important part of forest conservation.

Mr. Schierbeck resigned his position with Price Bros. to accept the offer of Mr. Barnjum to come to Nova Scotia to study forest conditions and possibilities in this province. Mr. Barnjum intends starting a nursery at Annapolis Royal immediately under the direction of Mr. Schierbeck for the benefit of the farmers and land owners of Nova Scotia so that they may be provided with transplants and seedlings for the reforestation of the waste land on their farms free of charge. And in order to demonstrate the benefit to be derived from proper forest management of the farmers woodlot, a demonstration area in the vicinity of Annapolis Royal will also be set aside for this purpose where interested visitors will be welcome.

Mr. Schierbeck is very much impressed with the possibilities for forestry in Nova Scotia in this respect of any province in the Dominion, with its fertile soil, moist climate and intelligent farming population, and with adequate fire protection measures, combined with proper cutting methods, the future of the province would be assured.—Halifax Herald.

Her Quinsy Yields To Vicks

The Direct Action of a Vaporizing Salve Is Best

Mr. Joseph Haley of 189 West Milk Street, Brantford, Ont., says: "My wife has suffered with quinsy for years, but Vicks VapoRub must have prevented it for she got through the winter without a single attack. We sent just of a jar to a neighbor, whose boy was very sick with a cold or grip. He also got relief. Vicks surely should be in every home."

They used to treat cold troubles externally with tallow, goose grease and camphor. Recently, internal dosing has been the habit and people naturally doubt the value of a salve.

For this reason, Canadian druggists introduced Vicks VapoRub, the vaporizing salve for all cold troubles, by giving away dozens of samples to responsible families and every jar sold was on 30 day trial.

The above report is just one of the great many received from enthusiastic Canadian families. With such endorsement and a positive money-back guarantee, every household ought to give Vicks a thorough trial as the home remedy for croup, colds, sore throat, bronchitis, catarrh, neuralgia, cuts, burns, bruises and sores.

At all drug stores, 50c. a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St. W., Montreal, P. Q.

Though Vicks is now in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

What Will You Put in the Pot?

When you drink tea every cup should be a delicious refreshment—a distinct pleasure. But this demands good tea in the pot. You cannot possibly get satisfactory results from inferior tea.

Now consider the small cost of a cup of King Cole Tea—a mere fraction of a cent. Surprising isn't it? But its secret is in the rich liquoring King Cole blend which yields so generously in the number of cups to the pound. It makes King Cole the truly cheap tea. From whichever point you view it—economy—quality—or the wise combination of both, King Cole Tea claims your preference.

"You'll Like the Flavor."

Constipation Banished

A druggist says: "For nearly thirty years I have recommended the Extract of Roots, known as Mather's Siga's Carative Syrup, for arresting and permanently relieving constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops thrice daily. Get the Genuine. 50c. and \$1.00 bottles.

TRIBUTE TO CANADA

(By Collyer's News Bureau)

The following tribute to the Dominion of Canada and her people is paid by the Governor of Minnesota in a letter to Bert E. Collyer, editor of The Release:

State of Minnesota
Executive Department
St. Paul.

My dear Mr. Collyer:

The manner in which Canada has borne its war burden, kept its credit good, taken care of its service men and their families, and the general manner in which it has tackled and solved its after-war problems, is most remarkable. It is a wonderful tribute to the thrift, energy and enterprise of its citizens and splendid evidence of the unlimited resources of the country. The United States is most fortunate in having a neighbor as progressive and friendly as Canada.

Yours truly,
(Sgd.) J. A. O. PREUS,
Governor.

Ever Increasing In Popularity

MODERN BUSINESS SCHOOL LTD.
ST. JOHN MONCTON

When packing away Winter garments, heavy, draperies, etc., be certain each article is absolutely clean. Hang articles in the sun, shake them, gently beat, then brush. Soiled places on garments attract moths.

When packing away evening gowns for the Summer, sprinkle pieces of white wax between the folds of paper they are tied up in. If this is used you will find they will not turn yellow.

AUTUMN'S GLORY

It is with the reverence of an artist that we open our eyes to the annual glory of Autumn. For it is a living and potent reality, part and parcel of all-embracing truth. Its psychic side may be wrought with mystery, but it is just as real and true as are the more material blessings of Autumn, which we enjoy but see no mystery in. The tinted leaf and the glamor of the harvest-moon minister to us just as effectively as does the harvest itself.

And it is here. It is here, with its golden sunshine, its flaming forests, its dull red marches, its penecostal morning branch, its sunsets of unspendable splendor, and its brilliant, starry nights. The earth, as well as the heavens, are "telling" the "glory" of Almighty Love, whose hand alone can paint the nights and shadows, the gorgeous and the subdued hues we see on tree and plain and mountain-side—and the unseen colors sensed only by the receptive soul of men.

It is well, if one can, to go to the Berkshires, or up to the picturesque Hudson, or to any similar shrine of nature's glory. It is well, but it is not necessary. We need no Emerson to tell us that right near home we can, if we will, drink our fill of Autumn's beauty and majesty. Be it in the Middlesex or in Franklin Park, Bostonians can see what Longfellow saw when he sang:

There is a beautiful spirit breathing now
Its mellow richness on the clustered trees,
And from a breaker full of richest dyes,
Pouring new glory on the Autumn woods.

Nor does one have to travel over all the vast sections and rich soil of our country to realize the truth of what the same American singer felt when he wrote again of Autumn: Thou standest, like imperial Charlemagne,
Upon thy bridge of gold; thy royal hand
Outstretched with benedictions o'er the land,
Blessing the farms through all thy vast domain.

There is no particular day when Autumn begins or ends, but roughly speaking this season runs from the Autumnal equinox, in the latter part of September, until Thanksgiving, just as Winter may be dated from Thanksgiving till the vernal equinox in March. But the climax, the full prime, of Autumn's glory is reached in October, whose virile and magnificent splendor stands out in high relief in contrast with the gradual fading of the Summer seen in September and the sombre but tender withdrawal of Autumn which lends such a peculiar charm to much of November. There is a certain sadness tingling all the weeks of Fall, but sadness is not Autumn's dominant note, as might be the case were it not for the paramount influence of October's brilliance and joyous bounty; more than any month in the year October represents the triumphant sentiment of consummation, and thus furnishes the keynote of Autumn's rich and complex theme.

For Autumn and its glory have a real message for men. It each month has its own personality, much more is this true of each season, and beneficent Autumn, summing up the story of the year's travail, seems to set its seal of vindication on man's and nature's throes and efforts, telling us "This done; 'tis well; rejoice therefore; for our labor has not been in vain."—Boston Transcript.

MINARD'S LINIMENT RELIEVES PAIN.

Sewing Circle Gossip.

There was some discussion at the Circle this week about buying coffee in bulk. It was found that the majority of our members had abandoned this practice and were now ordering LUXOR ORIENTAL COFFEE in one pound air-tight tins. These tins preserve the original strength and flavor of the coffee, so that it has the same delicious flavor and aroma as though it had just come fresh from the roaster.

THIS photograph shows the presidential party of the Canadian Pacific Railway taken on board the Princess Louise before they sailed for Skagway, while on their tour of inspection over the company's lines. In the back row, from left to right, are Mr. F. W. Molson, Mr. J. K. L. Ross, Sir Herbert Holt and Mr. W. N. Tilley, K.C. In the front row, left to right, are Vice-President D. C. Coleman, Sir Augustus Nanton, President E. W. Beatty and Captain J. W. Troup.

Saved Baby's Life

Mrs. Alfred Tranchemontagne, St. Michel-des-Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers." Mrs. Tranchemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money, make \$250 to \$500 per month.
