Geared Wind Mills, for Driving Machinery, Pumping Water, etc., from 1 to 40 horse power.

I. X. L. FEED MILLS. The cheapest, most durable, and perfect iron feed mill ever invented.

DEAR SIRS,—I have had one of your 13 foot Halliday Geared Wind Mills for over a year. It was first erected on the barn, which proved to be too low, as a bush nearly shut the wind off, and I was disappointed in the mill; but since you put the mill on the 20 foot derrick it has given me every satisfaction. I have one of your No. 3 I X L Feed Mills, and can grind feed at the rate of 12 bushels per hour, and pump water for my stock at the same time. I also run my cutting box to its full capacity, for which purpose I formerly used four horses. The mill is perfectly self-regulating. I can set it so that it will give the necessary power to either drive the cutting box or a churn. If anyone doubts the mill being as represented tell them to call on me some day when there is a good breeze, and I will send them away without a doubt.

The Gold Medal Herd of Berkshires

A few good young sows for sale, in pig to imp. boars. Also some young pigs from 3 to 4 months old. We have a number of first class sows to farrow in March and April. Are prepared to take orders for young pigs from these sows. They will be by the imp. boars Leinster Duke and Lord Randolph. The first mentioned boar we have lately sold to N. H. Gentry, Sedalia, Mo., for \$300. He weighed 700 lbs. when two years old, and is the best specimen of a Berkshire boar we ever saw.
