

Do You Raise Chickens?

¶I suppose you raise some chickens. In fact it is a pleasant and healthy occupation. There is money in it, too. How do you raise them—still the old fashioned method, or with an incubator and brooder? What success have you? Does it happen that in your incubator chickens will die in the shell at the time they ought to come out? Some are all feathered, they are big chicks? If that is the case, it is your own fault. Everybody can raise chickens with the old hen; all you have to do is to feed her and she will do the work, but as soon as you take the place of the cluckers you have to know how to do the work. Can you raise the chicks? Lots of people have good luck, the chicks hatch fine but they cannot raise them. They die off one after the other and they cannot raise but a few little runts. What is the reason? Where is the trouble? If you don't hatch them right, it is your own fault, and if after you have hatched them you can't raise them, it is due to the fact that you don't know how to feed them properly. You will learn in time; it might take you three or four years but you will find out how to hatch them and raise them; but I will tell you a simple way of getting some information, information that you cannot do without, and you will get this information for merely nothing.

Read My Proposition, Read It Through, It Won't Cost You a Cent

¶You all know that The Golden Kennels and Poultry Company, Limited, of Chatham, is the largest poultry plant in Canada. I started this plant for my pleasure three years ago, and now am giving all of my time to the interests of my company. I have made a success out of my venture. Why? Because I knew how to manage my stock, how to hatch my eggs right and how to feed my chicks in the right way. I am now publishing a monthly poultry paper. I want my paper read by all the poultry raisers; I want every farmer in this country to receive monthly my review, which will contain all the information, and different methods by which successful poultrymen have achieved their successes. ¶Don't you think it will pay you to get my paper? You have some birds you intend to winter. Do you know how to mate them properly? How to feed to have lots of winter eggs? Do you know how to feed them so that your eggs will be fertile in the spring? Then all you have to do to find all about those important features of poultry culture, you have only to subscribe to my paper, for a year. The price is \$1.00 a year, but to everybody sending TWENTY-FIVE CENTS IN STAMPS and mentioning THE CANADIAN HORTICULTURIST, I will send my paper for one year absolutely free. Now don't delay but right now send your subscription in. Address all your letters to

J. R. COTE ————— CHATHAM
ONTARIO, CANADA

SPECIAL NOTICE—If you want to see sample copy of my paper, "Poultry and Dogs," before sending in your subscription, just drop me a postal card with your name and address and I will send you at once, absolutely free, a sample copy, which will show you how you can profit by having my paper every month regularly. Don't delay. Write to-day.

Mention The Canadian Horticulturist when writing.
