An experience of over thirty years enables me to say that there is no better remedy for Sore Throat and Coughs, even of long standing, than Ayer's Cherry Pectoral. Two years ago I was taken suddenly ill. At first I supposed it was nothing but a common cold, but I grew worse, and in a few weeks, was compelled to give up my work. ELLIOTT & SON are gratified to be able to state that their last season's trade was the most satisfactory in the thirty years' existence of the firm. They attribute the popularity of their efforts to a careful judgment on their part in the selection of designs and artistic taste in their arrangement. With the advantage of a very large decorating business, they are enabled to judge of the effect of various styles of design and colour, and to use the same invaluable experience in the choosing of all their materials, from the cheapest to the most costly. They have pleasure in announcing below some of the leading lines for the coming season:

WALL PAPERS.

The unrivalled productions of Messrs. Jeffrey & Co., of London, England, were one of the chief attractions at the Arts and Crafts' Exhibition, lately held in London. The Victorian series of Wall Papers made by this firm and designed by Lewis F. Day, Walter Crane, J. D. Sedding, and others, are well represented in our stock. All other lines made by this firm, from 12c. per roll upwards, are in the most perfect taste, and allow of the selection of really artistic hangings, at prices usually paid for commonplace designs. We are sole importers of Messrs. Jeffrey & Co.'s productions. We will also show a beautiful line of Liberty's Wall Papers, designed and coloured especially to harmonize with their celebrated silks and hangings. These papers are not at all expensive, and will no doubt find a large sale. We have, beyond question, the largest stock in Canada of Japanese and French Leather and Stencil Papers, among which are to be found some of the most delightful conceptions in decorative art. Our importations of Japanese leathers direct via British Columbia will embrace the productions of three establishments, including the Government factory.

lief. We are the only firm in Canada executing combed and grafted work artistically, and carrying a full stock of relief ornaments for all purposes. Our range of designs in Paper Stucco for cornices, centres, friezes, mouldings, etc., is immense, and as we import direct, we are selling much below the price of any goods brought to this country via the United States. We also show a matchless line of original Relief Friezes, modelled in our own atelier, and capable of exquisite decoration.

LINCEUSTA WALTON

Continues to hold the lead as a practical relief wall decoration, and is shown in a number of new designs. Our stock consists of both English and American makes, and is always very complete.

ROOM MOUNDINGS.

A range of special designs in all sizes of American mouldings, at low prices. Every design sold exclusively by us. Specialities in picture books.

STAINED GLASS.

Our last season's work in this beautiful art showed a complete appreciation of the capabilities of all the few forms in which glass is now made. We will introduce some very novel effects during the year in the use of opalescent glasses for domestic work.

PARQUETRY FLOORING.

We sell the best American-made thin wood flooring and wood carpet, and quote either to supply or lay and finish complete in borders and all over floors. Specimen floors laid in our show rooms.

HAND-PAINTED TILES

Painted in our establishment and made to any style of design required.

AMERICAN PAPERS.

We have made a careful selection of designs by the best American manufacturers only, the continued cutting in prices having caused deterioration in quality in many lines.

WASHABLE SANITARIES

Have always formed an important feature in our stock; and encouraged by past success we have greatly enlarged our range of designs for the coming season. Prices at from 20c. per roll upwards.

BELIEF MATERIALS.

The tendency of high class interior decoration at the present time is in the direction of effects in re-
