WATCHES!! JEWELRY!!

Romaine Gold, so extensively worn in Paris, was first discovered in 1870, by the celebrated French chemist M. D. Re Linge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for Solid Gold. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of \$ 0,000,000 for the purpose of manufacturing Romaine Gold Jewelry and Watches. With this immense capital, and the aid of improved machinery they were enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of Solid Gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

This Company is remarkable for the following features of interest to assurers:-

- 1. It is a Canadian Company incorporated by a special Act of the Dominion Legislature, and invests the whole of its funds in Canada, thereby giving to its Policy Holders the benefit of their own premiums. 2. It has made the required deposit with the Dominion Government, for the absolute security of its Policy Holders. 3. Its investments are of the most select character, and command a high rate of interest, making it profitable to its Policy Holders. 4. Being under an experienced management, by which its funds are husbanded, recklessness, waste and ruin incident to companies in the hands of novices are avoided. With these and other inviting features made known on application to the Head Office or to any of its agencies, there will be no cause for surprise that during the past twelve months of unparalleled depression in trade the Company has done MORE THAN A MILLION of new Life business besides Accident.
