

Jan. 11th—Discharged cured.

2. Feb. 19th—Wm. M. Cook, 52 years. Has had severe cough for last three months, due to cold caught in a typhoon on the China Sea after three days' exposure to cold and wet. Has hardly any sleep, incessant dry night cough. Glyco-heroin (Smith) teaspoonful every two hours.

Feb. 21st—Immediate relief, has had quite a little sleep.

Feb. 22nd—Improvement continued.

Feb. 24th—Slept all night.

Feb. 26th—Has not coughed in forty-eight hours.

Feb. 28th—No return of cough and discharged cured. Is now in charge of the culinary department of hospital.

3. Jan. 23rd—D. A. Coolie, laborer, 48 years. Marked dullness at base of left lung, severe pain and dyspnea. Temp. 102, pulse 104, resp. 40. There was daily chilliness at 11 a.m., followed by temp. of 103½ to 104. Expectoration muco-purulent. Emaciated, irritable, and appetite completely lost.

Jan. 26th—Glyco-heroin (Smith) teaspoonful every two hours.

Jan. 27th—Some relief to cough, other conditions same.

Jan. 28th—Free expectoration, all conditions still unchanged.

Jan. 29th—No morning rise of temperature, p.m. temp. 102, pulse 96, resp. 32.

Jan. 30th—Seems somewhat better: had a profuse night sweat.

Jan. 31st—Temp. 101, pulse 88, resp. 24. Took considerable nourishment.

Feb. 1st—Temp. normal, pulse 88, resp. 24. Less dullness, no expectoration, cough disappearing. Spirits vastly improved. Said it was his third attack, and that in each former instance he was in bed eleven and eight weeks, respectively. Continued to improve, and was discharged Feb. 26th, well.

4. Feb. 17th—J. J., laborer, 19 years, pneumonia third day, dullness of entire right lung. Temp. 103½, pulse 120, resp. 60; expectoration prune-juice, very restless and thirsty, slight delirium, glyco-heroin (Smith) teaspoonful every two hours.

Jan. 18th—Temp. 102, pulse 102, resp. 48, much easier.

Jan. 19th—Temp. 100, pulse 84, resp. 36.

Jan. 20th—Temp. normal, pulse 80, resp. 24.

Expectoration has changed, and is feeling much better. Absolutely refused to believe that he had pneumonia. Discharged cured.

5. Nov. 3rd—S. J., a diver, 34 years. Had just been discharged from another hospital where he had been treated for four months for typhoid-pneumonia. Had considerable dyspnea, cough dry, spasmodic, at times slightly frothy expectoration. Temp. normal, pulse 100, resp. 28. Right pleural
