## HEAP'S PATENT Earth or Ashes Closets

Pat'd Nov. '84, May '85, Oct. '85. Also in U. S. A.

**WHAT IS AN EARTH CLOSET?**—An Earth Closet is a mechanical contrivance to conveniently cover excrement with earth or ashes. This covering at once suppresses all odour and gradually absorbs and neutralizes the matter itself. The pail needs to be emptied about once a week, or when full, and the reservoir to be filled when empty—once in two or four weeks perhaps. Nothing could more perfectly answer the purpose. It gives out no odour; is not ill-looking; its usefulness is not limited.

The Earth Closet is regarded as indispensable wherever there are not stationary conveniences in the house; and in respect to smell, "modern improvements" are rarely as satisfactory. It can be placed in a bath room or any convenient place in-doors, or in a shed.

**READ!** "Twenty-five of these Commodes were supplied to the Mount Royal Hospital, Montreal, and the Medical men and lady nurses in charge expressed themselves well pleased and satisfied with them." "I have pleasure in testifying that the Earth Closet (3) supplied by your Company to extremely well and to be very conducive to health and comfort." "Very Rev. Dean Boomer (London) is pleased to testify to the value and usefulness of the Bedside Commode, supplied to him by Mr. Heap. It has fulfilled all the promises made for it in the printed circular, and he strongly recommends it for the use of invalids." [We may add, it is a No. 9 Pull-up Commode and stands by the Dean's bedside, he being a confirmed invalid.]

**CANADA'S COMIC JOURNAL.**

GREAT IMPROVEMENTS FOR 1886.

The aim of "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than the whole columns of editorial. In this pungent, easily appreciable, and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of Grip shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of Grip are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and colored paper,—every number being so artistically executed as to compare favorably with the best papers of the kind on the continent. The advertisements will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title-page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of Grip will hereafter be \$3 a year, which is lower than that of any paper of its kind in America,—most of them selling for \$5. Single numbers of Grip will be 10 cents.

Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced,—particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra charge.
