which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Brenchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effeetual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually

control them. The testimony of our bost citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cared by this preparation, are publicly known, so remarkable as hardy to be believed, were so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Congles, the foreranners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender langs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which heaet the Throat and Chest of childhood, Chement Protoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, inultitudes are rescued from premature graves, and saved to the love and affection centred on them. It nots speedily and surely against ordi-nary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know

enza and painful Broughitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

DE LA SALLE INSTITUTE. Nos. 18, 20 & 22 Duke Street, TORONTO, ONT.

DIRECTED BY THE CHRISTIAN BROTHERS.

This thoroughly Commercial Establishment is un der the distinguished patronage of His Grace, the Archbishop, and the Rev. Clurgy of the City.

Having long felt the necessity of a Boarding School in the city, the Christian Brothers have been untiring in their efforts to procure a favorable site whereon to build; they have now the satisfaction to inform their patrons and the public that such a

place has been selected, combining advantages rarely. The Institution, hitherto known as the "Bank of Upper Canada," has been purchased with this view and is fitted up in a style which cannot fail to render it a favorite resort to students. The spacious building of the Bank—now adapted to educational purposes—the ample and well-devised play grounds and the ever-refreshing breezes from great Ontario all concur in making "De La Salle Institute" whatever its directors could claim for it, or any of its patrons desire.

The Class-rooms, study-halls, dormitory and refectory, are on a scale equal to any in the country. With greater facilities than herotofore, the Christian Brothers will now be better able to premote the physical, moral and intellectual development of th students committed to their care

The system of government is mild and yet firm in enforcing the observance of established discipline. No student will be retained whose manners and

morals are not satisfactory : students of all denominations are admitted. The Academic Year commences on the first Monday in September, and ends in the beginning of
