

# “Standard Sanitary”

## MODERN BATHROOM

Design P.—55

This bathroom illustrates a simple but extremely practical and beautiful interior and shows how successfully beauty and utility can be combined. The simple shower over the tiled-in bath offers the maximum of bathing facilities with the least possible equipment and display.

The Lavatory is the “Standard Sanitary” “Narova” design, a pattern that has proven very popular on account of its handsome appearance and excellent quality. It is enamelled all over, free from cracks and crevices, and is easily kept immaculately clean and sanitary.

The Closet is of the Metric Flushing Valve Type. Its operation is accomplished by pushing momentarily a small index button, and is guaranteed to thoroughly flush the bowl at each operation.

All Closets of this type, operating on direct pressure, should be supplied with water at a minimum pressure of ten pounds through a full 1¼-inch I. P. size supply pipe to each Closet.

“Standard Sanitary” Plumbing Fixtures can be obtained from all leading plumbers, and are carried by jobbers and sales agents throughout the Dominion.
