## Amoco's Amoco's \$250 million \$250 million "Prairie Rose" "Prairie Rose" blossoms blossoms in Alberta in Alberta

**A**moco Canada Petroleum Company Ltd. a subsidiary of the U.S. petroleum giant Amoco Corporation, is investing

\$250 million in a new production plant in Alberta as part of a joint venture with Nova Corporation of Calgary.

The new facility, which the company calls "Prairie Rose," will use advanced, patented Amoco technology to produce linear alpha olefins — the petrochemical building blocks of a variety of industrial and consumer products

Please see AMOCO page 2
