

Abandonment of Defence Projects

While we are trying to suggest ideas to improve our system so that every Canadian citizen can find an adequate and decent living in this country, the present government has but one thing in mind, nuclear weapons, the storing of nuclear weapons we shall not even control but which will be controlled by foreigners, by the Americans.

When I see the surprise on the face of the hon. member for Mercier (Mr. Boulanger), I find that to be the normal attitude of the guy who could not care less, who crawls on

his belly, who drags along, acts like a sheep, is unable to think for himself and lets others do it for him.

Mr. Speaker, may I call it ten o'clock?

The Acting Speaker (Mr. Batten): Order. It being ten o'clock p.m. this house stands adjourned until 2.30 o'clock tomorrow afternoon.

At ten o'clock the house adjourned, without question put.
