

# APPARATUS FOR THE STUDY OF THE

PHYSICAL PROPERTIES OF

SUBSTANCES

## DESCRIPTION

The apparatus consists of

1.

2. The apparatus is designed to

3. The apparatus is suitable for the study of the physical properties of substances.

4. The apparatus is suitable for the study of the physical properties of substances.

5. The apparatus is suitable for the study of the physical properties of substances.

6. The apparatus is suitable for the study of the physical properties of substances.

7. The apparatus is suitable for the study of the physical properties of substances.

8. The apparatus is suitable for the study of the physical properties of substances.
