Principal,  
McGill University.

Dear Sir Arthur,

I beg to acknowledge the receipt of your letter of January 29th. with reference to the attendance of students at the classes in Physical Education.

With reference to the last paragraph of your letter in which you mention that Dr. Lamb thinks it would be helpful if I would post the results in Physical Education in the same manner as the results in other subjects are posted, i.e., post the list of those who pass instead of those who fail, I may say that it will give me the greatest pleasure to post the results in this way, or any other way that Dr. Lamb desires. Dr. Lamb, however, has sent us no list of the students who have passed, but has sent us a list of those who have failed. I have, consequently, posted this latter list calling especial attention to the fact that students whose names appear on the list are defective, but that they can, if they commence at once make good this deficiency by attending three periods a week instead of two. I also appended to this list an extract from the Calendar setting forth the penalties which students will incur if they do not make good these attendances.

It has always appeared to me that doing this impresses upon the students who are in default much more directly the fact of their deficiency than if a list of those who had complied with the conditions was published making no mention of those who had not.
