

TABLE III.

Dr. Edward Young's official figures of United States Fish, Fish Oil, and Products of the Sea Exports to British America in 1872-3 grouped. First:—In terms of the Canadian Fire-brick and Clay Series; Second:—In tabular form, showing that his larger quantities are successively and continuously sums of his smaller quantities; Third:—In the form of an Arithmetical Progression, identical with the Arithmetical Progression of the terms of the Fire-brick and Clay Series. The whole being properties belonging to the Bernoulli Series obtained by the expansion of $(1+1)$ or $(1-1)$ to the power of n , arranged in the form of the Bernoulli Table.

STATEMENT No. VI.
