

The Model School is doing its work efficiently under the able management of Miss Amy McKee, a graduate of the McGill Normal School. Our numbers are somewhat affected by the influx of French into our little village, who occupy positions formerly held by our own people.

Owing to the continued stringency of the times, our railway debt, and the removal of Westbury from my charge, we are having a pretty hard task to make up our increased assessment. I have good hope, however, that it will be done.

A font, a communion service, an organ, and a horse shed are necessities yet to be provided for the Church of the Good Shepherd. Faith and hope in no small degree are necessary to buoy one up against the never ending claims that arise for Church work.

DURHAM.

The Rev. G. T. Harding reports :—

I am happy to be able, again this year, to give a good account of the affairs of our Mission.

The work has gone on prosperously, in very much the same way as stated in my last report. Services were held in all the churches, throughout the year, as usual, with equally as good success, generally, as last year, and in some respects, I am thankful to say, rather better. In L'Avenir,
