NORTHERN TRAIN TO LEAVE LATER

T. and N. O. Out of North Bay to Connect With G. T. R. Express.

The T.N.O. Railway Commission have decided that this year they will run their morning train out of North Bay to connect with the Grand Trunk summer train, which leaves Toronto at 2 a.m. every morning. During former years passengers arriving in North Bay on this morning train from Buffalo and Toronto had to wait over in North Bay until the following day. By this new arrangement passengers leaving Toronto on the summer train at 2 a.m. will be landed in Cochrane, the northern terminus of the T.N.O., on the same day. It will also be a great boon to business men who are spending their vacation in New Ontario, as it enables them to keep in touch with the movements of the business world through the columns of the morning papers, which they will now receive on day of publication.

It shows the quick responsiveness to public opinion by the commission of the T.N.O. Railway in rearranging their summer time table which permits this connection to be made.
