The end of the day left curn at he to a shade advance; oats, with he to be decline, and provisions varying from 24c sain to a loss of a dime.

The general rains of the last 48 hours put a stop, to all talk of a dry weather scare in the wheat crowd. Anything like a stampede to sell was checked at the start, the obstacle being a disconcerting show of strength in May, when shorts tried to cover. Export sales of Manitoba helped to give a relatively firm tone to trading at the close. During the session July ranged from 87% to 8c, and in the end was 87% c, a loss of he net. Corn-Prices were sustained by the icea that conditions for shelling the crop would interfere with expected enlargement of receipts. July ranged between 511% and 52c, closing firm, a fraction up. Cash grades were easy. Benefiting rain brought about liberal selling of oats, especially by the country. On the resulting break there was good buying on the part of commission houses, but the weakness, notwithstanding, was greater than in any other cereal. Low and high prices for July were 33% to 33% to 33% to 33% to 33% to 36 demand, slipped down 10c, as compared with the last preceding close. in a sagging market for wheat. Because

Montreal Grain Prices.

Montreal, May 22.—There was no improvement in the demand from foreign buyers for Manitoba spring wheat, and what few bids came forward were away out of line with values here. Cables on oats were weaker, and the prices bid would bring back over 25½c per bushel for No. 2 Canadian, afloat at Fort William; consequently, no business was done. The local market was weaker, and prices declined ½c per bushel on account of the slow demand and the easier markets in the west. A fair volume of business continues to be done in spring wheat flour for local and country account, and the undertone to the market is firm. There was some inquiry for winter wheat flour from foreign buyers, but the prices bid were just 9d per sack lower than millers were disposed to accept.

Montreal Live Stock.

MONTREAL, May 22.—At the Montreal Stock Yards west end market the receipts of live stock for the week ending May 20 were 1250 cattle, 160 sheep and lambs. 1720 hogs and 1415 calves, while the offerings on the market this morning consisted of 800 cattle, 100 sheep and lambs, 1000 hogs and 200 calves.

A feature of the trade was the stronger undertone to the market for cattle, and prices since this day week show an advance of 15c per 100 lbs., in spite of the extreme heat which has prevailed during the past few days and the continued discouraging advices received from European sources, cables from Liverpool this week noting a further decline in prices of ½c per pound, which makes a net drop of 1c per pound, which makes a net drop of 1c per pound, which makes a net drop of 1c per pound, the past two weeks, which means that exporters will lose money on their first shipments, which went forward from this port, instead of making some, as they would have done if prices had been maintained around 13½c to 14c per pound, but the hot weather and the increased supplies were too much for the market.

Cows of good quality sold down as low as 4c to 4½c per pound. Cows of good quality sold at 5½c to 5½c, and inferior ones at 3½c to 5½c, and the kener demand from packers for supplies, a stronger feeling developed in the market.

Building, report the following fluctuations on the Chicago Board of Trade:

Prev.

The gathering of buyers on the local the increased supplies were too much for the market.

The gathering of buyers on the local market this morning was fairly large, but weather and the higher prices demanded, the demand for cattle was only fair, and the trade in the ingher prices demanded the demand for cattle was only moderately active, consequence was only moderately active. Choice steers sold at 6 to 5½c, and the common at 4½c to 4½c. \$20 to 5½c, and the common at 4½c to 5½c, and the common a

of 10c per 100 pounds. The trade was active, and sales of selected lots were made at \$8.75 to \$7.85 per 100 pounds, weighed Prev. Close, Open, High. Low. Close. at

off cars.

The trade in small meats was quiet; but, as the offerings were limited, a steady feeling prevailed in the market, and prices show no important change. Old sheep sold at \$\frac{1}{2}\$ to \$\frac{1}{2}\$, and spring lambs at \$\frac{1}{2}\$ to \$\frac{1}{2}\$ each. Calves brought from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ each, as to size and quality. Liverpool Cattle Market,

LIVERPOOL, May 22.—John Rogers & Co., Liverpool, cable to-day that consequent upon the recent reduction of price and the increased supplies, the demand for both cattle and sheep in the Birkenhead market improved considerably, the head market improved considerably, the business being brisk at Saturday's quotations, which were: Steers, both States and Canadians, from 12½ to 13c; wethers. 11¾c to 12c; and lambs, 13½c to 14c per lb., were well maintained.

Chicago Live Stock, CHICAGO, May 22.—Hogs—Receipts. 50,-000; market good; generally 10c higher; mixed and butchers, \$5.70 to \$6; good, heavy, \$5.65 to \$6.55; rough, heavy, \$5.50 to \$6.65; light, \$5.70 to \$6.05; ipigs, \$5.50

J. P. Bickell & Co. received the following at the close:

Wheat—On account of the thoro wetting down which the winter wheat received, the market resumed its downward course to-day, and closed easy at a decline of about ½c from Saturday's close. Notwithstanding the fact that the news in general warranted a much more substantial decline, there was sufficient demand on soft spots to absorb miscellaneous offerings, which were small. The lack of pressure, in our opinion, was due to the strength in May and fear of possible manipulation in July, which, we believe, is an absurd assumption, in face of the underlying condition and crop outlook. There was little change in the character of trade, it being almost entirely professional. As the passing of dry weather has removed the only legitimate sustaining influence, and as the situation from a supply and demand standpoint could hardly be more bearish, we can no longer consistently advise the purchase of wheat, as nothing short of a calamity now will prevent values from sagging to

Prospects for a good, steady cattle trade, at steady prices, were never better thap they look just now.

But we would warn the drovers that there was only one buyer of exporters operating to-day; that was Mr. Geo. Campbell, for Morris & Co.

Mr. E. L. Woodward informed The World that he could do better on the Chicago market, as he considered that Toronto cattle prices were the highest of any on the American Continent.

Mr. Woodward is an American, and buys for an American firm, but did not buy any for export to-day, as, he said, his people could do better in Chicago.

Mr. Farmer, just remember that an American cattle dealer says you have, and have had for a long time, the best cattle market on the American Continent, and especially remember this when they tell you that reciprocity is going to give you a better market.
