Is Given Third Reading—Senator Blain Scores Criticism of Government's Attitude.

Ottawa, July 3.—The new business profits tax bill of the government was given its third reading in the senate

Before the reading, Senator Blain referred to recent criticism of the government's attitude toward profits and especially to a reference recently made from an Ottawa pulpit, condemning the government for permitting great profits to private parties to have been made out of the war. Senator Blain said that it was the privi-lege and the duty of the pulpit to instruct the people, but it was repre-hensible for a clergyman to mislead his congregation thru ignorance of facts when the facts were available to him for the trouble of appearing at parliament and making inquiries.
Senator Blain said it was true that there had been great profits made,

especially in the early days of the war, from the manufacture of munitions. But the British government had placed the orders and had fixed the prices. The early prices had been fixed at a high rate to stimulate the production o needed munitions.

The Canadian government had noth

ing to do with the matter. However, it had passed a business profits tax, which in the three years of taxation had resulted in a total of almost \$67,-000,000 being collected.

Senator Fowler condemned the secrecy attending the collection of the insuch as the federal tax collectors were or the escape of taxation, and he be-

Higher Prices in Argentina and Dry, Hot Weather Bullish Influences.

CORN AS USUAL

Chicago, July 2.-Sharply higher rices in Argentina added today to bullhelped to lift the market to a new high level for the season. Closing quotations were strong at %c to 2c net advance, with September \$1.84% to \$1.84% and December \$1.62% to \$1.62½. Oats finished unchanged to %c lowar. In provisions there were gains of 10 to 65 cents.

Bulls in corn received fresh encouragement from the fact that hog prices had again surpassed all high records. Dry, hot weather too, continued at first to make the buying fever more intense, but was offset later as a result of predictions that showers would be general. However, dealers who pay attention to calendar theories maintained confidence that a bulge was due for July 4.

July 4.

Just in the nick of time advices came to hand that since last Saturday there had been unusually rapid upturns in prices at Buenos Aires. This news led to a new wave of buying orders, the effect of which had but little diminished at the end of the day.

Prospects of cooler, moist weather, eased the oats market.

Provisions reflected the rise in the hog market and touched the highest point yet this season for pork and ribs.

To Shareholders of the Atlas Gold Mines Limited

The "CALLING" of "ATLAS" has been delayed so that arrangements could be completed with New York interests which would insure the greatest possible speed in bringing ATLAS to the producing stage, give the fullest possible protection to "ATLAS" shareholders and provide the greatest possibilities of future profit.

These arrangements, including the sale of a large block of "ATLAS" stock. having been successfully consummated, we are pleased to announce that "ATLAS" will be CALLED on the Standard Stock and Mining Exchange on Wednesday, July 16th. 1919.

We strongly advise the purchase of "ATLAS" at the market
