## SUPERVISING PRINCIPAL FOR SECONDARY SCHOOLS

**Motion to Create New Office Carried on Vote of Eight to Four.**

From a few minutes after 8 o'clock last evening till 10 the members of the board of education talked over the question of appointing a supervising principal for the secondary schools of the city.

The matter came up as a recommendation from the management committee and was instantly opposed by Trustees Levee, Brown, Rawlinson and Miss Martin, who seemed to consider it a conspiracy to give someone a job. The discussion became extremely personal and the status of the public schools was brought into question during the debate. Trustees Brown declaring that the manners of the children who attended them were insufferably bad.

**Depends on a Head.**  
The appointment was championed by Trustees Parkinson and Hunter, who argued that the efficiency of the whole secondary system depended upon its having a head, thru whom it might be unified. They intimated that the government was in favor of their scheme, when Miss Martin triumphantly produced a letter which she had received in the course of the day from Hon. Dr. Fyfe, stating that he had never considered the subject.

The vote was taken on a motion by Trustees Levee to refer the clause to a future meeting. The advocates of the scheme proved the stronger and the amendment was defeated on the following vote: Levee, Brown, Rawlinson and Miss Martin—Nays; J. Simpson, Dineen, Ogden, Parkinson, Hunter, Shaw, H. Simpson and Kent—Yes.

**Must Use Union Label.**  
The contract for the prospectus of the technical high school was awarded to the Bryant Press at \$750 a page, and on motion of Trustee J. Simpson it was decided to ask the firm to use the union label on their work.

The resignation of A. Perrin, public schools music teacher, was accepted, and on motion of Trustee Shaw he was given a retiring allowance of \$50 a year.

Fortunately his head remained clear and he was soon released by the gang of laborers who were working at the car. The injured man was removed to his home on Fairview-avenue, where, after examination, his body, arms and legs were found to be badly bruised. He will be confined to his bed for a week or two. ## FACTULTIES OF MEN AND WOMEN EQUAL

**Ambassador Bryce Talks on Education of Women—Would Not Talk of Political Life.**

PHILADELPHIA, June 6.—James Bryce, the British ambassador, was the orator to-day at the commencement exercises of Bryn Mawr College, taking for his subject, "Has the Education of Women Distinctive Aims?"

He said that the faculties of men and women are practically equal, and held therefore that the intellectual training for the one is fit for the other.

As to women in political life, he said he claimed the privilege of declining to give an opinion on a topic so highly controversial for an Englishman to answer, but he added that so far as he could judge, the majority of American women, at least in the eastern and middle states, do not desire change.

The ambassador suggested to women two fields of work which the average male citizen does not find time to enter. One is the cultivation of a thorough knowledge and a fine taste in literature, the habit of reading that which is not ephemeral, and the other field includes the study of how to mitigate the contrasts between wealth and poverty—how, in various ways, to help those who need help.

**TIGER FOR THE ZOO.**

Daniel Lamb has written the mayor announcing the donation to the Riverdale Zoo, by the Kemp Manufacturing Company of a handsome young Bengal tiger. Word was received from New York last night that the animal was en route. It should reach Toronto to-day.

The animal should prove quite an attraction. Riverdale Zoo is assuming proportions, and it is only a short time since a local firm contributed a polar bear. There can be no more popular gift to the citizens than some rare specimen of the animal world to the zoological gardens, which on Saturdays, Sundays and holidays are visited by thousands of people.
