tion for a nule nisi to quash a summary viction of defendant for assault. The ts of the case are fully reported in The orld of November last. The conviction of November last. was made by the Mayor of the Town of Midland, and at the same time three other Magistrates gave a certificate dismissing the information. It was contended on the one hand that one Magistrate could not convict while the other three dissented, and on the other hand that the three Magistrates, though present, were hot called upon by and did not sit with the Mayor. Mr. Justice Street granted a certiforari on Nov. 9 last on the ground that there was a bona fide dispute as to how many Magistrates sat.

The Court of Appeal reserved judgment in Attorney-General v. Hamilton Street Railway Company, and the appeal of the defendants from the Judgment of Falconbridge, J., upon the findings of the jury a sale of the stallion "Bold Lion," partially heard. It will be concluded to-day.

CHICAGO GOSSIP. gin on shorts covering and some buying on a small scale by scalpers. Liverpool cables were weak; Berlin steady; Paris firm; all fractionally lower. Kansas City reports little better demand there for cash wheat. Receipts in Northwest about half that of last year. We keep hearing from that section that there is not enough wheat in that country to supply the milling demand, but there is wheat enough here to supply any speculative demand, and speculation is what is wanted to keep the price above 80c. The only thing that has held this market as strong as it was was the short interest. Fourteen loads taken in New York to-day for export Jan., and Feb. loading). Price Current-says: "Some talk interest. Fourteen loads taken in New York to-day for export Jan. and Feb. loading). Price Current says: "Some talk of damage to wheat crop, but not much change indicated in average position. Positively favorable reports predominate." The crowd got too much short wheat out and in the last hour when they started to cover found the supply had vanished. Their buying caused a sharp advance to 80%c. The close is strong at the top. We believe there is a large short interest left in the market, and would not be surprised to see a further advance to-morrow. Corn and oats held strong. The pit trading was without special feature. Cash demand fair, crowd bearish and short interest large. We believe in buying corn and oats on all weak spots. Provisions stronger and more active. Those interests which nave been conspicuous sellers of late were noted as buyers to-day. Armour bought lard and ribs. Baidwin and packers bought polk. Week's packing 456,000, against 430,000 last year.
