## We Are Becoming A Race of Dyspeptics

This is the Opinion of the Vast Majority of Medical Men

## Where Does the Fault Lie? Principally With Ourselves

We are not particular enough about what we eat. Foods that A Stylish Travelling Cape for do not agree with us we still continue to take.

We hurry through our meals as if life and death depended on our doing so as rapidly as possible. If it is necessary to hurry, do so, but not at your meals. We neglect a slight attack of indigestion, though it makes us miserable indeed at the time. A second attack is treated in the same manner, and before we realize it our digestive apparatus is very much out of order.

We advise you strongly to never neglect an attack of indiges-

tion, however slight.

We have placed within everybody's reach a remedy so simple, yet so very good, that there is no excuse for having a second attack of this miserable disease. Gibb's Buttermilk Tablets composed of the nutritive and digestive qualities of pure, fresh buttermilk, and the best digestive ferments, will cure every case of indigestion, dyspepsia and sluggishness of the liver, and help you to enjoy life. They will make you feel better, eat better, sleep better, and give you a perfect complexion. Did you ever see a person with good digestion, a bright eye and a poor complexion?

The Girl with the Churn has given us a remedy in the form of Gibb's Buttermilk Tablets for all diseases arising from improper digestion, such as loss of appetite, sour stomach, sleeplessness, pal-Str. POLITICAL INTELLIGENCE.

Nicholas Flood Davin, M.P., left the city yesterday for Ottawa, from whence he will go to Chapleau, Algoma, where he will address a Conservative rally that will be held there on Monday next. The meeting will mark the opening of the campaign in Algoma, and a large gathering is expected to be present. After the meeting Mr. Davin returns to his home.

Ideal Water Trips.

The marvels of the Thousand Islands of the St. Lawrence; the daring dashes down turniluous rapids; the impressive grandeur of the frowning cliffs of the gloomy Saguenay; the beautiful resorts of Murray Bay, Cacouna and Tadousac; busy Montreal and quaint old Quebec, are all reached via the elegantly appointed steamers of the Richelieu & Ontario Navigation Company. The daily trip from Toronto to Montreal is an unbroken pleasure, enlivened by the excitement of running all the rapids of the St. Lawrence. Our readers should remember, too, that these steamers afford pleasant access to some of the best of the muskalonge, bass, pike and trout waters of the St. Lawrence and its lower tributaries.
