# We Shall Spend \$500,000 To Give Liquozone Away.

This Company, after testing Liquozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is the highest price ever paid for similar rights on any scientific discovery.

We are now spending \$500,000 to give the product away—one bottle to each of a million sick ones; We are doing this so that every sick one may let Liquozone itself prove what it cannot kill.

The result is a product that does Oxygen gas, as you know, is the very source of vital-total pandruff Dyspepsia Rezema—Erysipelas Rezema—Erysipelas Yourcorle Gouters—Gout Gourche—Gout Gourche—Gout Gourche—Gout Gourche—Gleet Women's Diseases All diseases that begin with fever—all inflammond in the compare. Kills Inside Germs

The greatest value of Liquozone lies in the fact that it kills germs in the body without killing the tissues, too. And no man knows another way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease, as every physician knows.

that it cannot kill.

The reason is that germs are vegetables; and Liquozone, which—like oxygen—is life to an animal, is deadly to vegetal matter. It is carried by the blood to every cell of every tissue, and no touch of impurity, no germ of disease, can exist where Liquozone goes.

Germ Diseases

Liquozone will do for sick humanity more than all the drugs in the world combined. It does what no skill can accomplish without it. It cures diseases which medicine never cured.

Acts Like Oxygen

# Acts Like Oxygen ends the disease, and forever.

Liquozone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases

Dr. McLaughlin:

My Dear Sir,—Regarding Belt purchased from you, would say that it has done wonders for me. Before I used it I could hardly get around, with pains in my back, left hip and leg. After wearing it for four times I could perform some light work and continued to improve, when, at the end of two weeks, I left it off, and have not feit a pain since. I have lost that always timed feeling, as well as the rheumatism, so you will know somewhat of the change in me. I don't remember ever feeling better in my life. My next-door neighbor said your Belt was no good, and that he could get a ring that would soon fix me up. He got the ring, and I the Belt; I am well, and he will be if he uses the Belt also. Thanking you for the interest you have taken in my case, and wishing that others could see that you have something to bene-

Dear Sir: Three years ago, when I got your Beit, I was completely used up with rheumatism. I wore it about a month, and I was completely, and I believe, permanently cured, as I have had no rheumatism since. My wife has also used the Belt with good effect. Th committal was made largely on the strength of the testimony of the writing expert, Eldridge Stanton, who swore that of the 127 ballots cast for aldermen, 14 had been positively marked by the same hand, and that an individual hand had marked many votes for Dr. for the Board of Education. or Dr. Orr, the Board of Education

T. C. Robinette made a strong plea for acquittal, on the ground of insufficient evidence of conspiracy on the part of either of the Laxtons. All that was addited from the test mony taken was that there was a suspicion of some one havin tampered with the ballots. Nothing had been proven that would be directly incriminating against either of the officials, he Said.

Colonel Denison thought differently.
It was evident that some one had been tampering with the ballots in this division, and John E. Laxton, as D.R.O., and his brother W. A. Laxton, as clerk, were in charge of the booth, the ballots and the ballot box, therefore it appeared that they would be the most likely persons upon whom suspicion should fall.

Unless the last circular of the A. E. Mark Company has been complied with, to-day (Saturday) is the date named for making an assignment. It was rumored on the street yesterday that the doors of the firm would be closed this morning, but a member of the company last evening denied that this would be done.

"We have received a very favorable consideration of our proposition from a large percentage of our creditors." said Mr. Fraser, "but the plan suggested of working out the estate has not met with acceptance by all. I am not in a position to give any further information at the moment, but a statement will be handed out to the press for Monday's readers." Further developments are being awaited with interest by the creditors met around town, and one volunteered the information yesterday that he had heard of threatened suits which had been called off, but on what conditions he could not state.
