Britain's Interests Safeguarded—Under-standing Reached in Regard to Corea.

London, Jan. 10 .- A dispatch to the Daily Mail from Hong Kong, dated Saturday, says it is reported there that England, Japan and Russia have arrived at an agreement respecting Corea. The details of the agreement are not known to the correspondent, but the dispatch says the British fleet is returning to Hong Kong. It is believed here that the threaten-ed partition of China has been indefinitely postponed, and that England, as usual, has the lion's share of advantage from recent eastern events. The Chinese loan, it is stated, will tie China securely to British interests. Germany's lease of a seaport is regarded as relatively unimportant. England will uphold the integrity of the Chinese Emrant house. consequences. The real peril is that western methods of manufacture should be introduced in China. China is not a buyer, and should her millions, who live cheaply and work skillfully, ever be trained in western methods of industry, she could become the workcompetition would be futile. It is pointed out that America's

interests are identical with England's in keeping China intact, and that the long talked of Anglo-Ameri-can alliance should come in and stand against partition. Paris. Jan. 9.—The cruiser Duguay Trouin, flagship of the French Pacific squadron, has been ordered to Chinese waters. The Duguay Tourin is a second-class cruiser, iron and wooden hull, of 3,539 tons displacement. Her complement is 311 men, and she has a speed of 15.9 knots. New York, Jan. 10.-How to find work for the unemployed in large cities on a self-sustaining basis, is a question which Typographical Union No. 6 is trying to solve.
