Windsor City Council To Strike Tax Rate, Then Strike For Wilde Fight

Windeor, April 11,-The seat sale has been practically closed out for the Jimmy Wilde-Zulu Kid bout at the armories here Monday night under the auspices of the Army and Navy Veter-

Association. A special meeting of the Windsor City Council to strike the tax rate for the year will be summoned earlier than usual, and business will be cleared up with all possible expedition in order that members of the council may occuingside seats, already reserved, for

Opposition to the meet which developed two weeks ago, when the purses, aggregating \$10,000 for the two prinipale, of which Wilde will receive \$5,500, was announced, resulted in no definite action, although threats were made to secure an injunction to stop the battle. Several of the members of the Ministerial Association will be in the audience, and one or two of the strong-est opponents of the fight a few days ago, will be seated within a few feet ago, will be seated within a few feet of the ring, having consented to come into actual contact with the fight game before they voice further criticisms. Promoters rested easily tonight, as-sured, that in spite of the heavy expense entailed in the Nest card that has yet been introduced to local fans, the big-gest crowd in the history of either Detroit or Windsor boxdom would be in attendance Monday night.

ONLY ONE FREIGHT TRAIN IS MOVED ON **GRAND TRUNK TODAY**

Switchmen's Strike Will Not Last Much Longer, Says Supt. Forrester.

Only one freight was reported to be moving on the local division of the Grand Trunk this morning, as a result of the tight embargo that has been put on all ports of entry to the United States. Absolutely to goods except for local points are being moved either on the Grand Trunk or the C. P. R. Although the freight is so severely affected by the switchmen's strike that is in effect in nearly every point in the United States, the passenger service is remaining uninterrupted. All trains, including the through trains on the G. T. R., were on time this morning, and only two on the C. P. R. were reported to be a trifle behind their schedule.

In the opinion of Superintendent C. F. Forrester of the local division of the G. T. R., the strike will not last much longer.

Lamb and Craig of the department of public works, have made report of actual necessary work within recent months, since I asked for a return in the House last session, and this work requires an expenditure of \$263,000 for interest present needs. This includes removing of the submerged pier, the building of a new pier, widening the building of a new pier, widening the channel between the west pier and the proposed new pier to 150 feet, the expense of the proposed new pier to 150 feet, the expense of the proposed new pier to 150 feet, the expense of the proposed new pier and certain other miles. the new pier, and certain other minor improvements."
