Some Talk Regarding Payment of Teachers Who Preside at Laminations.

That the school children who come out from the old country are far ahead of the Toronto public school children, was the statement by Trustee McClelland at the meeting of the management committee of the board of education yesterday afternoon. The statement was made when discussing the motion of Trustee Mrs. Courtice, that agriculture be made a permanent feature in the schools, which was referred back by the board. It was referred back by the board. It was suggested that some other items be left out of the curriculum to make way for this, such as arithmetic, and finally decided that the matter be referred to the inspectors to report. A lengthy discussion took place regarding the recommendation of G. A. Smith, senior principal of the high schools, that the high schools close on June 8 instead of, as usually, at the end of June, on account of the sax minations. Trustee Dr. Steele asked why some other place could not be used for the writing of these examinations as the cost would be one-tenth, and moved that the pay of the teachers who preside at these examinations be withheld, as they get paid for this special work by the government. It was decided to send the report on to the board without any recommendation.

Going to Oakwood.

The recommendation of Principal Smith that Ernest Forsyth, B.A., at present assistant master in, Pauline Avenue Public School, be appointed temporarily in Oakwood Collegiate, was carried. Chief Inspector Cowley recommended that no permanent appointment be made to fill the positition, of teacher at the Hospital for Sick Children, but that the work be assigned to an occasional teacher. The recommendation carried. Another suggestion that the special kinders garten class at Victoria Street Creche be closed and that the pupils over five be allowed to attend kindergarten at Victoria School was held over. It was agreed that at the end of the present term the half day instruction at the Home for Incurable Children be assigned to an occasional teacher.

Attractive Program of Work Has Brought Many Old Members Back to Ranks.

The 10th Royal Grenadiers will be inspected this evening by Col. A. E. Gooderham, honorary lieutenant-colonel of the regiment, and former com-manding officer. Next Thursday even-ing will be the last parade of the Royal Grenadiers for this season.

It has been a singularly successful season for this regiment. Despite the fact that it has sent 212 officers and about 3,500 men overseas, it has continued to make progress, many of the older members coming back to the ranks. The scheme of work has been varied and has proved very attractive to the men. Tactical schemes were engaged upon and these not only helped to keep up interest, but illustrated many of the methods employed in acwarfare.

Following up their success of a year ago when by a band concert they raised \$850 to provide comforts and food for prisoners of war in Germany, the Grenadiers' Chapter, I. O. D. E., have arranged another such concert for the ne purpose for Saturday evening at the armories. The band of the regi-ment will provide the musical part of the program, and there will be other

### URGE USE OF FISH AS WARTIME FOOD

Organization of Resources Committee to Institute Sea Food Campagn.

At yesterday's meeting of the organization of resources committee of Ontario, the sub-committee appointed to deal with the fish resources of the province brought in a report which was adopted. The object of the report is to institute an immediate campaign to increase the use of fish as a food, and thus relieve other foodstuffs for the Canadian soldiers overseas, the mother-land and our allies, and in this way effect some of the objects of the greater production movement.

Another matter dealt with was the appointment of a number of field secretaries to assist in the organization of the province. It was recognized that the extent of the 1918 crop will depend largely on the work done in preparing the land this year, and this in turn will depend upon the quantity and effici-

The committee also took up the question of the prevention of waste and the inauguration of a thrift campaign and a sub-committee was appointed to deal with this matter,

## THE GLORY OF VICTORY

Pictures Coming Next Week Record Duty Faithfully Done.

"Ye mothers of men take heart. They have given their lives for the Empire—for you, that Freedom, Honor and Civilibation may live."

Such is the counsel thrown upon the screen, when the film to be presented next week showing the Fall of Bapaume comes to the portion of the battle scene where the inevitable price of victory is suggested. But the editors of this film have been very kind. They have not left a trace of the gruesomness or the morbid horror or the battlefield that pure realism would have permitted. It was thought that there was-sufficient understanding of the horrors of war. What was needed was to show the glory of duty well and faithfully done, the glory of unquenchable courage, and the glory of victory. For this film is a record of victory, a record of the spring offensive of 1917, when after months of work, months of fighting, months of preparation, the Germans were driven out of their two-year-fold positions, and forced back to the "Hindenburg line." Vivid Action Pictures.

Vivid Action Pictures.

The picture originally consisted of ten reels and was a complete summary of the offensive campaign of last winter and spring up to the capture of Bapaume and Peronne. It has oeen, since condensed to six reels, seaving nothing but the most vivid pictures of the troops and the most intense part of the action. No scenes where the German dead strew the pattlefield or parts where the inevitable price of victory in dead and wounded soldlers of Britain or her dominions have been left, and women who have suffered from this war in dominions have been left, and wonen who have suffered from this war in the loss of loved ones, may have a better understanding of the struggle for civilization from seeing these pictures, without at the same time being subjected to shock and distress of witnessing scenes of suffering and

death.

Messrs. Jule and Jay J. Allen who present these pictures have had to do with all the official British war films shown in Canada to date. The Toronto World lends its auspices to the presentation at the Regent Theatre next week beginning at 1 p.m. Monday, believing that the showing of official motion pictures of the war is the best possible supplement to the presentation of the news in the printed despatches from the correspondents at the front. pondents at the front.
