### ADOLESCENT ACT **MUCH CRITICIZED**

Ward Seven Ratepayers Are Addressed on Many Topics.

**WEST TORONTO** 

Ward Seven Ratepayers' Association were addressed by Controller W. W. Hiltz last night in Carlton School. Addresses were also given by Ald. S. Ryding and F. G. I. Whetter and Trustees Mrs. Groves and F. B. Edmunds, the two latter confining their remarks principally to the adolescent act. There were about forty present, W. J. Dalton, past president, occupying the chair.

"What I think are the requirements of the city of Toronto to make it the city it ought to be," was the theme of Controller Hiltz. "A city is not great because it has a great population," he said. "But there will be a day when Toronto will have a great population and I don't think we should do anything to stop that day.

"Since 1834, when Toronto became a city, she had doubled her population every fifteen years," he informed, "and ten years ago Toronto and Detroit were practically equal in population. Now Detroit is the fourth city in America, due to her industries.

Treat 'Em Alike,

"We have an ideal harbor and are in line with the natural resources of northern Ontario," he contended. "I believe we have a good transportation commission." The speaker was not agreed that the railway extensions in the city be a matter of local improvement. "There might be some such provision for annexed sections, but the people in the city must be treated alike." he added. Buses might displace the railway in future. That was feasible upon second thought. Education had not received its proportion. "I am in favor of domestic science and singing, etc., but I can never get away from the fact that they are secondary."
