## Notice To Advertisers

It is important that advertisers in The Evening Times take notice that, under the prevailing conditions due to change of time on the railroads, this newspaper is obliged to issue one hour earlier than usual in order to make connections and, consequently, begin work an hour earlier in the day, therefore the business office will be open from 8 a. m. to 5 p. m., (old time) and advertisers are requested to have their copy in the office one hour earlier than usual. This to ensure prompt service and change.

The ceremony took place at the home of the bride's stepmother, Mrs. Kenneth Harris. Mr. Thomas has lately returned from overseas, having served with the No. 2 Construction Corps.

### CONFER AGAIN ON HARBOR MATTER

Ottawa to be Asked at Conditions Under Which Port Will be Turned Over

The matter of the nationalization of the port of St. John was brought up by the mayor and discussed at a committee meeting of the common council this morning. The mayor and all the commissioners were present and after talking the matter over for a short time it was decided to let it stand over for further consideration before the offer was either accepted or rejected on the opinion of the citizens taken through a plebiscite.

The mayor said that he had gone into the turning over of the harbor with Hon. Messrs. McLean and Carvell and they had come to the conclusion that \$2,500,000 would be a reasonable price. Later they were in consultation with Hon. Mr. Ballantyne, minister of marine and fisheries, who expressed the desire to see that St. John should get everything that had been put into the harbor.

"There was strong opposition," the mayor said, "on the part of the Ontario and western members and in view of the large expenditure that would become necessary immediately, it was considered by them that \$2,000,000 was a good price to pay for the harbor.

"The result of the auditors' examination of the books you already know," said the mayor.

He said that he had also called on C. P. R. officials in Montreal and was asked what the government was going to do with regard to the building of elevators and conveyors at this port, to which he replied that he thought that one thing at a time was all that was advisable to take up.

"The price," the mayor said, "is not so good as it might be and I think the government might have been a little more generous, but I do not see any prospect of any better terms."

Commissioner Bullock suggested that Ottawa should first be communicated with as to the conditions under which the harbor would be handed over and to get if possible a copy of the agreement between the Dominion government and the city before any definite action was taken on. The commissioners agreed to this proposal and decided to consider the matter further at a later date.

### FIND MILK CONDITIONS IN CITY IMPROVED

Health Department Regulations are Having Their Effect—Some Advice

Some good advice regarding the care of milk and also suggestions to housewives were given by an officer of the Department of Health this morning. In addition to this, it was reported that the bureau of health laboratories that the condition of milk in the city is much improved. Of eleven tests for butter fat, eight were well above the minimum required. As for cleanliness, the report shows a far better grade of milk being sold today than a month ago. This is regarded as due to the new regulations regarding the inspection of dairies and dairy herds.

In order to carry this work on successfully every person must co-operate with the department. To help the dairymen do this a few suggestions have been offered. In the first place the object of milk inspection is to see that the supply of milk is good and also to see that the milk itself is good. The dairymen must remember that he is handling the most important food product we have for innocent babes and growing children, and they do not play with their lives by thoroughly straining and properly cooling the milk, they had better get out of the dairy business at once as they will be the means of causing sickness among the children, and also get into trouble with the department of health.

The housewife also has her part to play; she must keep the milk cool, keep it clean, and also do not keep it in the house, these are some of the aids for multiplication of bacteria. The milk must be cooled to fifty degrees Fahrenheit, immediately after it is milked, and it will be refused by the consumers unless this condition is complied with. The housewife is also urged not to throw the empty milk bottles down any where, but to put them in a clean box as soon as they are washed. This also helps in keeping down bacteria.

The department also urges that children drink from one to two pints of milk a day, as it helps them to grow strong and well and enables them to win in their fight against disease.

The railway authorities are co-operating with the department. They are taking greater care in the cleaning of the milk cars. The companies will also refuse any cans if the covers are not on tight.

### PREPARING FOR PRIESTHOOD

Nine young men who are studying for the priesthood in the Redemptorist Congregation, have arrived home from preparatory colleges in Montreal and North East, Penn., to spend their summer vacations. Albert Butler, Harold Crowley, John Ryan, and Walter McIlhenny were studying at St. Ann's College, Montreal, and Elwood F. Martin, John Rolston, Gordon Hughes, James Graham and Lucian Howard at North East. As the Redemptorist Fathers are erecting a large new preparatory college in Brockville, Ont., the students will go there in October to continue their studies. In future Canadian students will be taught in Canada as the Congregation on this side of the border is now a separate body from that in the United States. For the first time in the history of the congregation in America young priests are making their second novitiate in Canada, and are present studying at St. Peter's rectory, North End.

Stores Open 8.30 a.m., Close 6 p.m.—Fridays 10 p.m., Saturday 1 o'clock
