GERMAIN STREET AS IT LOOKED BEFORE THE FIRE

That Portion from Church Street Northward with St. John's (Stone) Church Shown in the Distance — Some of the Business Houses of That Day

GERMAIN STREET BEFORE THE FIRE OF '77

In a glance at the accompanying picture one will recognize that it shows the portion of Germain street, running northward from Church street, which was destroyed by the fire that broke out on the morning of June 27, 1877. Quite a section of the street was destroyed by the fire but there were parts of it which were not touched and in looking at the old picture one can see the Stone church and the Vernon building, Oak Hall, and the corner of King and Germain streets.

For information in connection with the picture, the Times-Star is indebted to Clarence Ward, mayor of the Elliot house, and John Greer, who were in line above there, and on the corner of Union street was the boarding house kept by Mrs. Cannon. On the opposite corner was Dr. Preston's office, while farther along came Dr. Botsford's and the home of Charles Ward.

Mr. Ward said yesterday that he could hardly tell what date the picture was taken, as the street had practically been the same for thirty or forty years.

On the other side of the street, where now stands the Masonic Hall, is seen the building which was owned by J. E. White, a door or so above Wm. Butt kept a tailor shop, while John Greer did a shoe-making business about there as well. Mr. Hall occupied the corner where the bank of Cameron is now situated, and demands that such shabby justice should be discontinued and a better condition enforced by law.

Several small dwellings were located on the hill towards Union street and on the corner now occupied by the Elliot house stood the home of John Hastings. The dwellings of Dr. Carter, Dr. Livingstone and John Greer were in line above there, and on the corner of Union street was the boarding house kept by Mrs. Cannon.

Chatham, June 3.—This meeting in the Thames yesterday morning, F. H. Cummings aged 22 was offered to contribute \$50,000 for a new tuberculosis hospital for Ottawa. His suggestion was understood to be that \$50,000 of his subscription should be used for a hospital building in the city and \$10,000 for a farm short distance out where the patients may work and obtain the outdoor exercise so necessary for a cure.

The hospital is to be in memory of the late Mrs. Perley, the donor's wife, who died suddenly while in England last year. Mrs. Perley was greatly interested in the Lady Grey Hospital.

There are serious meetings in the inner circles of the French-Canadian Educational Association as to whether or not it is becoming more political or educational in its scope. It is alleged the association is being developed into a Bourgeois organization. An array of the matters is to be held within the organization soon.

WHERE WHITE PLAGUE CAN BEST BE FOUGHT

Director General of Public Health in Canada Warns Against the Six D's

Ottawa, June 3.—One of the interesting reports made to the government from time to time is that of Dr. F. Montanari, director general of public health, and in his latest account of the conditions prevailing in the domain he deals at some length with the question of tuberculosis.

Dr. Montanari is a strong upholder of four cardinal principles in connection with the white plague. He states that tuberculosis is not hereditary, that it is infectious, that it is curable, and that it is preventable. On this question he says in a report to Hon. Sydney Fisher:

If an more and more convinced yearly that consumption is mainly spread from the homes of those wage-earners who live under the least favorable sanitary conditions, helped doubtless by the six 'D's'—damp, dirt, dust, drink, distraction and destitution. It is there that the fight against it has to be made, if it is ever to succeed and the disease be eradicated or even markedly diminished. We must get at the homes of the incipient cases and the youngest members of their families while still unimpaired.

This can be done only by the domiciliary visit, to follow notification to the health officer, or the diagnosis at the dispensary that the cold or cough for which a cough mixture is sought is really due to tuberculosis trouble. The visitor to the home should be woman. She can talk to and persuade the mother as no man could do.

He will travel in his own private yacht, and later on the Prince of Monaco, who is a personal friend of Mr. Menier, will follow him in his private yacht, and pay him a visit of some duration.
