

OLYMPIC CHIEF LOOKS TO WILLIAM MAYNES TO GO TO GAMES IN FRANCE

P. J. Mulqueen, Here Today, Expects Belyea to Do Well.

That William Maynes, crack quarter-mile runner of this city, will undoubtedly make the Canadian Olympic team and should prove a likely contender for world honors, was a statement made by P. J. Mulqueen, chairman of the Canadian Olympic committee, on his arrival here today on the Canadian Pacific steamship Montrose. He said that this inference could be drawn from the fact that Al. Shrubbs, former world champion runner, recently witnessed Johnson win the quarter-mile race in the big meet between Oxford and Cambridge and maintained that he has every mark of a world-beater. He recalled the fact that Johnson, who is a graduate of McGill and a Rhodes scholar, Maynes in the Canadian championships in Halifax last year and defeated him only by inches, while Maynes had been set back three yards for false starts. He remarked if Johnson is considered so highly by a man like Shrubbs, what must Billy Maynes be?

See A. W. Covey
Mr. Mulqueen wished to confer with A. W. Covey, president of the Fine Branch of the A. A. U. of C. on his arrival here to get his approval of allowing Johnson to remain in England to write the university examinations and be eligible for the Canadian Olympic team without having to return to Canada to compete in the trials. He said that the examinations were to take place during the week of June 20 and a trip to Canada to compete in the trials would cause the Canadian athlete considerable inconvenience and might interfere with his studies. When this explanation was presented to Mr. Covey, who is a member of the Olympic committee, he readily agreed to Mr. Mulqueen's suggestion.

Missed Belyea
During his stay in England Mr. Mulqueen was anxious to run across Hilton Belyea, former Canadian champion single sculler, but missed him. Speaking about Hilton's chances, he said he is confident that with proper training and boating he will make a great showing both at the Olympic and at the Diamond Sculls on the Henley. He pointed out that last year Belyea lost by small margins and was not in the best of condition. He is confident that Hilton's long training period will put him in top form and make him the most formidable contender for world honors.

While in England Mr. Mulqueen had the pleasure of seeing Oxford and Cambridge eight oar crews work out. As he knew some of the members in the Oxford shell he took a keen interest in their rowing and expressed an opinion that they would win, but today's cables show that his guess was wrong.

Mr. Mulqueen announced that Captain Cornelius, of Hamilton College, athletic coach of the Canadian Olympic team, would come here when wanted to assist any Maritime athletes preparing for the big test at a central point. He said that Captain Cornelius would do all in his power to correct any faults the athletes had and that they would be able to give their best efforts when competing for a place on Canada's select team.

The Hockey Honors
Speaking about the hockey match between Canada and the United States during the winter programme at Chamonix, France, Mr. Mulqueen said there was a feeling in America that the game had caused bad feeling. He said this was erroneous. During the match he acknowledged that the play was bitterly fought, but once it terminated the best of feeling prevailed among the players and they lined together and chummed around, and life long friendships had been established. He said it was a question of real sports meeting and while they would fight bitterly for honors, once the match terminated all was forgotten and their friendship had been bound in a manner which only tests like that could accomplish.

With reference to financing the Olympic team, he said that at present the total grants aggregated \$25,000, whereas it will be twice that amount to pay the expenses of the athletes who will be selected to carry the colors of the Maple Leaf. Therefore the question of getting the Governments of the Maritime Provinces to make a grant should be taken up at once; also in

view of the fact that the Canadian athletes going over were asked to take part in the British Empire competition, which will be staged in London after the termination of the Olympic games.

At the conclusion of the games in France Mr. Mulqueen, who was accompanied by his wife and daughter, went on a tour to Rome, Florence and Naples. They left today on one of the C. P. R. special trains for Montreal.

The S. S. Out of that large number only 17 are destined to points in the States. In addition to the passengers the liner had a good sized general cargo and 891 bags of letters, 1,710 bags of mail and 860 packages of parcels. The passengers were to be sent for to their destinations in four special trains, the last leaving at 2:30 o'clock, the second at 4:30, the third at 5:30 and the last at 6:30.

Some Notables on Board
Among the passengers on the liner were: Hon. Justice and Mrs. C. J. G. Hallamore, formerly of St. John, who is now a judge in the Supreme Court; Hon. G. H. and Mrs. Malcolm of Ottawa, showing both at the Olympic and at the Diamond Sculls on the Henley. He pointed out that last year Belyea lost by small margins and was not in the best of condition. He is confident that Hilton's long training period will put him in top form and make him the most formidable contender for world honors.
