New Brunswick Power Co. Forwards Letter to Civic Power Commission.

The following letter was sent today by the New Brunswick Power Company to the engineer of the Civic Power Commission...

Dear Sir:—With reference to the burning off of our trolley wire on Main street, opposite No. 5 Engine House last evening, which was caused by one of the city's service wires coming in contact with the trolley...

We would call your particular attention to a similar condition which exists very close to the point where the break occurred last Friday night. The City service wire running to No. 211 Main street is very close to our trolley wire...

Yours very truly,  
NEW BRUNSWICK POWER COMPANY,  
M. A. POOLER,  
General Manager.

A Booster In Spite Of What Has Gone Before

An Indiantown correspondent sends The Times the following: "Another mill gone." The destruction of the Cushing mill removes another from the landscape. The writer is 85 years old and can remember the "bug" that used to ply between Market square and Indiantown, the horse cars and the electric cars. Better paved streets show advancement through the years, but regarding the industrial side of the situation Indiantown or that section of the North End from Adelaide street to the river has been on the down grade practically since that time.

It sweetens the stomach and starts the liver and bowels without gripping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Endorses Y.M.C.A. Centenary Methodist Church

To the Editor of The Times:—I would like to endorse the drive which the Y.M.C.A. is putting on Wednesday, March 12. I have been interested in the work of the Y.M.C.A. in the different cities of the Maritime Provinces for some years. I am particularly pleased with the work in this city, in various branches of service among young men and boys. It is the right work of the Church. I hope there will be a liberal response to the canvass next week, and that the year of '24-'25 will prove a banner one in the history of the Association.

BULLET OVER HEADS STOPS RUMMAGE

Six Boys Retaken After a Night Escape From Industrial Home.  
The escape of a bullet discharged from a revolver as it pierced the air over their heads proved far more effective than moral suasion when County Policeman H. A. The boys had secured a key, and just before midnight left the building and started along the March road. Those in the party were: Edward Cunningham, aged 14, Howard Cunningham, aged 12, Walter Coughlan, aged 14, all of Chatham; Gerald Landry, aged 14, of Moncton and Donald Payne, aged 15, and Gilbert W. WHAT THE PACKAGE DOES.  
Tea growers have found from experience that it is necessary to pack tea in air-tight metal-lined chests as soon after plucking as possible to preserve the flavor and goodness of the leaf. Equally so is an air-tight package necessary for retailing tea, and for that reason the "SALADAY" air-tight aluminum package is the most practical way of preserving tea-flavor that is known. Bulk tea is always poorer in flavor, since it is exposed to air.
