## British Columbia Fisheries

Fishing is one of the most important industries of Canada's Pacific coast province of British Columbia. With a shore line of nearly 7,000 miles, and a protected fishing territory of nearly 80,000 square miles, large resources in commercial fish are available. The production of the B.C. fisheries for the year 1914-15 was \$11,575,088. The total value of the equipment was \$8,829,740, and 18,000 persons were employed. The catch included salmon, halibut, hering, sturgeon, bass, smelts, perch, trout, oysters, crabs, etc. The industry is capable of enormous expansion. The largest catch consists of salmon. The "pack" in 1915 consisted of 1,138,000 cases, and British Columbia salmon is being exported to all parts of the world. Halibut is another valuable catch, the 1915 catch being marketed for over a million and a half dollars.

"Admiration cannot be withheld from the British Government for the fearless manner in which it tackles propositions as they make their appearance. The Mesopotamia muddle is a case in point. Although officials high in the administration of the nation's affairs were implicated no excuses were offered. The exigencies of the greatest war in history were not put forth as a plea for dilatoriness. Those guilty of blunders were openly accused and as openly punished. It is such action that establishes confidence and excites support."—North West Review, Winnipeg.

"We will stand shoulder to shoulder with Britain and France until the Kaiser is pushed into the North Sea or placed where Napoleon was placed," declared Hon. F. C. Gouby, of Denver, in an address to the delegates to the Grand Lodge I.O.F. recently held in Toronto. There could be no peace, the speaker said, until Prussian autocracy was wiped out for ever.

## SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process. Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's today.

## Codfish

The buying of new codfish from the nearby outports increased in volume this week amongst the city merchants. There is also a Spanish vessel in port buying a cargo. The price given for codfish is \$10 and for under qualities \$9.50 to \$9.75. Fishermen seem to have realized that early selling of their catch is the best policy this season. Labrador Soft sold for \$7.00 this week.

CODOIL.—There is great activity in the new codail transactions owing to the high price prevailing viz.: \$200 per ton. A few sales have been made even higher, viz.: \$205. The demand is excellent and it is believed that values will hold. The refined or Cod Liver Oil market is slow and uncertain at \$1.50 per gallon. Foreign orders are coming in very slow and few for the season of the year. The future in regard to price is very uncertain.

The Frankfurter Zeitung is "kidding itself" if it believes that it is Woodrow Wilson, and not the United States, that is at war with Germany.—Buffalo Express.

## Obituary

The death occurred on Sunday August 19th, of Francis Dawson O'Neill, second son of James O'Neill, Esq., of this town. Frank was a bright little fellow of 18 months, and up to a week previous to his death possessed a robust constitution and was a general favorite with all who knew him. A younger brother, John, having predeceased him by three months, makes the death doubly hard on the parents. Sincere sympathy is expressed for Mr. and Mrs. O'Neill in their sad loss. Interment took place to the R. C. Cemetery on Monday at 3 p. m.

More than 4,000 un wounded German prisoners have been taken.
