

LARGE ATTENDANCE AT THE EXHIBITION

A MARKED INCREASE OVER THE FIRST DAY

Everything Passed Off Satisfactorily—Sports and Games—List of Prize Winners.

(From Thursday's Daily.)

Taking advantage of the beautiful weather prevailing, a large number visited the exhibition yesterday. The increase in the attendance over that of the first day was so marked that the officials can be pardoned a feeling of confidence that after all over the balance will be found on the right side. Everything passed off satisfactorily. The sports, including bicycle races and a football match, were well contested and attracted a large crowd. The various side shows were liberally patronized, especially the Wallace glass-blowing exhibition, which was the Mecca of a constant procession of sightseers. The quality of the work turned out in this department is beautiful, some elegant spun goods being shown. Among these, spun neckwear is being offered for sale. As an additional attraction for the children, a Punch and Judy entertainment is provided, and quite naturally is considered by them the piece de resistance of the whole exhibition.

The programme yesterday afternoon, was opened with the grand parade of stock. Here, in a stately review, there passed before the eyes of the big concourse of spectators a choice representation of the province's animal aristocracy. Everybody, including those wholly uninitiated into the intricacies of the sports who can gaze at a glance the fine points of a lordly Shorthorn bull or a superb thoroughbred stallion, admires a noble quadruped, regardless of its species, and the stock parade was therefore attended with no little interest. Then followed the bicycle races and football match, a description of which appears farther along.

In the evening a programme similar to that presented on the first night was enjoyed by a large crowd. This consisted of a band concert by the Fifth Regiment band, a number of vocal selections by Mrs. Edmunds, who was accompanied by her husband, and some of her beautiful voice was heard to splendid advantage in a varied repertoire, while there was also a continuation of the boxing tournament. Another special feature of both afternoon and evening was the presence of the National silver coronet band, which discoursed an excellent programme.

Approxos of the judging of stock, the educational aspect should not be forgotten by those interested in this department. The expert judges, Mr. Glendinning, of Mania, Ont., and Capt. Robson, have been giving valuable pointers during the progress of their work. As they are practical men, whose wide experience has thoroughly familiarized them with the subjects whereof they speak, their remarks are attentively heeded and absorbed.

THE SPORTS.

Football and Bicycle Races Yesterday Were Keenly Contested.

Yesterday afternoon from 3 to 6 o'clock splendid sporting entertainment was provided. There was a championship football match and later on an amateur bicycle meet. Both proved very successful and the crowds in attendance enjoyed a pleasant afternoon.

Victoria vs. Garrison.

Promptly at 3 o'clock the Victoria and Garrison teams lined up, the former eleven playing down hill, and therefore having a slight advantage. Sergt. Wood, of the Work Police, directed the whistle to the satisfaction of both teams. After one of the most keenly contested games played on local grounds, Victoria won out by a score of 2 goals to nothing. At the conclusion of the match Mayor McCandless presented the medals given by the B. C. Agricultural Association for competition between the Victoria, Colquhoun and Garrison elevens, to the former team. He then made an address congratulating the players on the splendid games of Tuesday and Wednesday.

During the first half of yesterday's match the Victoria scored one goal. This was secured only after some really splendid work on the part of each member of the team. The forward line, which was composed of the local players, prevented the Garrison from scoring. Before the finish of the first part of the game one of the irrefragable attacks of the home team's forward line, supported by their half backs, took effect, and when the whistle blew Victoria was one in the lead.

From the first of the second half until the finish of the game both teams worked for all that was in them. It was only by the hardest kind of luck that the Garrison did not score. The goalkeeper had a number of opportunities, but none was improved, either through over-zealousness or want of practice. On one occasion Rivers carried the ball directly in front of Victoria's goal, and had nobody in front of him, but goalkeeper Jones. However, his shot went wide of the mark. With Garrison and Peden as back the Garrison was not given such another chance. Victoria, on the other hand, commenced to take a hand in the attacking and before the Garrison had got over the disappointment mentioned another goal was scored against them. For the remainder of the game the soldiers did the most attacking and vic-

torian played practically a defence game. Each player on the Victoria eleven did his work in a highly creditable manner. Menzies, a new man, is deserving of special mention. Yesterday was the first time he has been identified with the local senior team, and with a little practice he will be a valuable acquisition. Yesterday he carried the ball down right field, passing all opponents and scoring unassisted.

The tennis meet up as follows: Victoria Wanderers—Goward (captain), Peden, Gowen, Rithet, W. York, L. York, Tye, Jones, S. Lorimer, J. Lorimer and Menzies. R. G. A.—Fairies (captain) Wilkes, Johnson, Rivers, Taylor, Clinch, Ward, Price, Longbottom Mitchell and Harvey. The Bicycle Meet.

The bicycle meet was witnessed by a large crowd of enthusiasts. There were in all six races, and each was of exceptional interest. The slow race attracted considerable attention. For this event there were a large number of entries, but before the race had fairly commenced the competition thinned down until it was between two boys, Douglas Murray and J. Vantrough. The former was having the best of the contest when his attention was diverted and he fell, giving his only competitor first place. One of the most amusing races was the Chinaman contest, in which three were a fairly large number of entries. Following are the complete results: Half-mile flat, for boys under 16 years, J. E. O. Hancock, "Solar" lamp; 2, J. Pettigrew, "Twentieth Century" lamp. Time, 1:30.

Two hundred yards, slow race—J. G. Vantage, large pewter; 2, Douglas Murray, "Royal" bicycle bell. One mile, open—J. E. Hancock, oak and silver tankard; 2, A. J. Gray, pewter mug. Half-mile hurdle race—J. B. Hancock, "Brooks" saddle; 2, A. J. Gray, foot pump. Three-mile race—W. W. Northcott, Jr., oak silver tankard; 2, J. B. Hancock, pewter mug.

The contest between Fred Bailey and W. Hill was called off by Capt. Woolley, who referred to, the captain pointing out that the public wanted to see boxing, not wrestling. Jeffs, who won the lightweight championship between A. Jeffs, the present champion, and W. Hill, brother of Col. Hill, who needs no introduction, was a great success. At the end of the three rounds the referee, George Shiade, declared Jeffs the winner.

THE BOXING CONTEST.

The resumption of the boxing contest, as usual attracted a large crowd of spectators. The principal attraction was the lightweight championship between A. Jeffs, the present champion, and W. Hill, brother of Col. Hill, who needs no introduction. This was a great success. At the end of the three rounds the referee, George Shiade, declared Jeffs the winner.

LARGE ATTENDANCE AT THE EXHIBITION

Continued from page 5. Capt. Thomas E. Roy... had happened, only not in Shorthorn. T. W. was given some close Eastern stock.

What Some of the Exhibitors and Judges Have to Say. "I never saw a finer collection of stock in British Columbia," was the remark of William H. Lader, of Ladner's Landing, this morning to a representative of the Times. In his opinion it exceeded last year's exhibition both in numbers and quality. "Although," he continued, "most of the best stock comes from the Mainland, the farmers of the Island are to be complimented upon their recent displays." Referring to the agricultural exhibits, he said that the farmers of the Island deserved special praise for the splendid exhibit of apples, which were of as fine a quality as any grown this season in the Dominion.

Asked to give an idea of the value of the cattle on exhibition, Mr. Lader declined even to guess. "Why, there is thousands of dollars worth of stock on these grounds," he said, "and I don't believe anyone can give an estimate of its value which would be anywhere near the correct figure. The steamer Yosemite brought from Westminster the pick of the stock of the Delta, besides several carloads of pure-bred stock recently imported from the East. When this is considered some slight idea of the value of the stock here to be seen may be gained."

Mr. Lader, upon seeing the showing of stock at Victoria and New Westminster, said there was very little difference. He pointed out that a great deal of that stock here on exhibition had been raised in the Delta, besides several carloads of pure-bred stock recently imported from the East. When this is considered some slight idea of the value of the stock here to be seen may be gained."
