A quiet wedding took place in the Cathedral on the 2nd inst., at 8.30 o'clock, when the Rev. F. McMurray united in marriage Wm. T. Carvell and Miss Agnes M. O'Connell, both of this city. The bride was attired in a pretty costume of mauve, with yellow silk trimmings, and carried white roses. Miss Annie O'Connell acted as bridesmaid, and wore a very becom ing costume of fawn with trimm to match. The groom was supported by J. E. Horton. After the ceremon the happy couple repaired to the re-sidence of the bride's father, where

The news was heard with general regret 2nd inst. that John Drury, the well known builder, had departed this life after a short illness. Mr. Drury's nealth had not been as good as usual for some months, but it was only a few days ago that alarming symptoms of brain and kidney trouble were manifested. Mr. Drury was born in Sussex, but came to St. John when very young. For thirty-five years the had carried on a most successful business, and has erected many fine buildings. He leaves a wife and six children. The syns are H. A. Drury and Charles L. Drury, of the Imperial Oil company, and Samuel Drury, who was in partnership with his father. One of his three daughters is Mrs. C. H. Leonard. Mr. Drury was an energetic, worthy citizen and a large circle of friends will mourn his loss.

stants in the harbor and down the shore was unprecedently large for this season of the year. The Pisa rinco and Irishtown fishermen cap-tured over two hundred fish and up-wards of 100 were taken in the har-bor. Samuel McGuire of Pisarinco (west) has two boats fishing, which between them sent up 51 salmon, a great night's work. A Sun reporter had a long talk on 2nd inst. with two ish merchants, who insist that the dominion government should continue the course adopted in late years, that of placing salmon in the pond at Carleton and taking the spawn from them to be placed at the head waters of the St. John. These gentlemen say that our fishermen may thank the old government for the catch already

The Erastus Brooks fellowship for 1897-1898, worth \$500, has been awarded the faculty to Murray Macnetll, B. A., of this city. Mr. Macneill graduated with high honors from Dalhousie college, Halifax, last year and has college, Halifax, last year and has since been taking a postgraduate course at Cornell university. The above fellowship has been awarded for very high class work in advanced mathematics and physics. Mr. Macneill is a son of Rev. L. G. Macneill of this attraction. of this city. The first battalion of the second re ment of Knights of Pythias, Massa ts, will visit this city, leaving Boston on Monday, July 12th, arriving the following afternoon. They will be met by the Knights of this city and escorted to their hotels. The visitors will be the guests of the St. John Knights while here, and while the entertainment programme is not fully completed, it is probable a trip up river will be taken on Wednesday, the 14th. The party will number te-tween two hundred and fifty and three hundred. It is possible that Supreme Chancellor Colgrave and Major Gen-eral Carnahan will visit the city at the same time.

A cable message to James Kei nedy yesterday brought the sad news that Capt. Carland of the bark Cambusdoon, in port at Singapore, died on Sunday. Capt. Cariand belonged to St. John county, his relatives living at Ten Mile creek. He has a sister in St. John—Mrs. Daniel McDermott. Deceased was a comparatively young man and was unmarried. He had been master of the Cambusdoon for some time, and was highly esteemed by his employers. Before going on his last voyage he was not in good health. Two of Capt. Carland's brothers were killed in a railway accident near London about six years

LUMBERING AT BRIDGEWATER.

Frank Davison, of the great Nova Scotia lumber firm of E. D. Davison & Sons, Bridgewater, writes as follows to the Chicago Lumberman: "We are thankful to be out of the region dependent upon the American market, as your own production seems to be able to fully supply the demand and there is sound argument in favor of a duty on Canadian lumber while your lumbermen have to pay such high duties on all they consume. The British markets are now advertising free trade, and we hope some day your people may realize that if free trade is the thing for the United States it is a good thing for the whole continent, and that the Chinese principle of exclusion is behind the times. "We are running full time at present, cutting 150,000 feet a day and have all we can do to fill the contracts now made with foreign customers. The rainy season has been very favorable for log driving and the mills are now stocked with 15,000,000 feet of new logs, besides 3,000,000 feet of old stock, which has nearly all been sawed. Vessels have not arrived freely, so piling grounds are now filled

The selection of Fred. M. Cowperthwaite, B. A., as inspector of schools for the province, will be generally commended. He is not only a fine commended. He is not only a fine young man in every respect, but he is a skilled heacher, who has risen to "a high place in educational work in this section of Canada. Of the four inspectors, two hail from the old "U. N. B.," as its sets lovingly call their Alma Materie these being David Wilson, B. A., whose friends are legion, and Mr. Cowperthwaite. That startely old pile on College Hall at Fredericton has sent out from its venerable halls a goodly array of cultured, agreeable gentlemen, and among these neither Mr. Wilson nor Mr. Cowperthwaite take second rank. The World extends to Mr. Cowperthwaite with a singular pleasure its warmest congratulations on his preferment, and hopes that the Giver of all good things will spare him long to occupy a position which he will honor and adorn.

A FAREWELL AT WESTPIELD.

A telephone message to the Sun from Westfield reports that the residents turned out in force last night to give Dr. Wheeler a farewell send off. The doctor, who has been located at Westfield for some time, today removes to this city and takes the office of Dr. White, Carleton.

NOVEL ENGINE PAINTING

(London Mail.) The traveller on the London and North Western railway will shortly see something novel in locomotive coloring. Hitherto the company's engines have been satisfied will slack picked out with red, but in the Jubiler year there is to be an innovation, since F. W. Webb, the mechanical engineer, intends to paint the Greater Britain, Queen Empress, and Jeanie Deans, three of his patent compound locomotives, red, white and blue. This is likely to wire the palm for distinctive engine decoration.

UNCLE SAM'S WAR RESOURCES. (Boston Globe.)

Our government has just completed a grand census of the entire American militia, probably with the view of ascertaining where we should stand in the case of a war with some other power.

The new figures collected show that we have today in the country over 112,000 uniformed and organized state militiamen, who might at any time be added to our 25,000 regular soldiers. This would make a total of over 137,000 organized soldiers ready to fight at a day's notice.

But even this is only one-sixth of the estimated armed strength of Great Britain. In case of war we should have to depend upon volunteers or a draft, and at our maximum quots we could place in the field 10,037,576 men.

men.

Those liable and available for military service between the ages of 18 and 45 years in the United States, if placed in a long, single rank, side by side, with the usual space between, would reach from New York to San Francisco without a break. This is greater than the estimated strength of any other nation in the world, except Russia. It is well to know our possible strength, even if we never again have occasion to fully test it. Until General Arbitration takes command probably the best safeguard against war will be a proved ability to sustain it if forced into it.

PEACE AT ANY COST.

(Indianapolis Sun.)

Great Britain is building 89 war ships,
France, 83; Russia, 39; Germany, 19, and
Italy, 13. The peace of Europe is assured,
