AN INTERNATIONAL GUNNERY CONTEST
May be Arranged Between British and United States Ships
Shooting Conditions in the U. S. Navy are Easy Compared to Those Under Which British Gunners Fire.

NEW YORK, Aug. 14.—A special cable to the Sun from London says: There is great interest in naval circles in the suggestion of Rear Admiral Bradford of the United States navy for a gunnery competition between picked teams from British and American battleships. In the British navy there is a tendency to disagree somewhat on the records of good shooting in the United States navy. It is not denied that there are many good marksmen across the Atlantic, but it is pointed out that the American service target is considerably larger than the British, while the Americans do not carry their shooting on the lines of British battle practice, relations such as would prevail in war. Running target practice in the American navy is carried out in smooth water, rendering it much easier to score a large percentage of hits.

STREET COMMISSIONER ASKED FOR AN ACCOUNT
Howard Scott, of Moncton, Must Give a Statement of all Material Sold—New Locomotives for P. E. Ry.

MADE FUN OF HIS CLOTHES AND HE GOT ANGRY.
Six Persons Shot or Stabbed for Being Gay With a Parlor Car Passenger.

MONCTON, Aug. 14.—The I. C. R. has ordered from the Kingston Locomotive Works two narrow gauge ten-wheeled passenger locomotives for the P. E. Island road. The locomotives will cost about thirteen thousand each and are similar to the locomotives used on the express on the I. C. R. Street Commissioner Howard Scott has been requested to file with the city clerk within twenty-four hours a statement under oath showing in detail all slag, or material, from slag, sold and the price obtained therefor. A great deal of improvement work is being done on Moncton streets in which slag is used, and Street Commissioner Scott has charge of this work. A couple of days ago one alderman noticed a couple of civic employees piling some slag by the side of a road, and on enquiry learned it was placed there by order of the street commissioner, who, the employee said, took it and sold it. The mayor said at the council last night that he had been informed that Scott had sold slag to the extent of fifteen dollars in one week, and the matter will be investigated.

POLICEMEN CAPLES AND GREER ADD TO THE EVIDENCE IN THE CLARK ASSAULT CASE.

They Had Some Difficulty in Locating the Prisoner When They Went to Arrest Him—Their Sources of Information.

BERLIN, Aug. 14.—This snapshot gives a good idea of the thorough training of the German recruits. It shows one of the ways in which the nerve of the men is tested—by jumping over a barrier of bayonets.

EMPEROR NICHOLAS TEMPTING FATE VISITING KRASNOYE-SELO.

Has Gone to Spend a Week There—Police Believe They Have Broken up the Revolutionary Headquarters at Moscow.

ST. PETERSBURG, Aug. 14.—In spite of the attempt on the life of Grand Duke Nicholas Nikolaevitch on August 10 at Krasnoye-Selo, the emperor, accompanied by his entire family and the major portion of court, has gone to Krasnoye-Selo to spend a week at the guards' camp. Six additional guard regiments have gone to the camp from St. Petersburg, and the most rigid precautions have been taken to protect the emperor's safety during his stay. The railroad station at St. Petersburg is heavily guarded, and no civilians are allowed to leave there for Krasnoye-Selo except after being fully identified. A grand review is scheduled for August 19, after which the imperial family will go to Tsarskoye-Selo instead of returning to Peterhof, although some of the papers report that it is the intention of the imperial family to immediately go by sea to Livadia, in the Crimea, and spend the autumn there.

TORONTO BUILDING TRADES STRIKE A SERIOUS ONE
Five Thousand Men Will Go Out in Sympathy With Carpenters—S. T. Bastedo Gets a New Job.

TORONTO, Ont., Aug. 14.—Five thousand men, representative of the building trades in Toronto, will be on strike at 5 o'clock tonight if the carpenters' strike is not settled. This was decided upon last night after nearly four hours of animated discussion by the federated council of building trades at a most representative meeting in Labor Temple. At 5 o'clock tonight the trades with the exception of bricklayers and bricklayers' laborers will put away their tools until the carpenters' difficulty with employers is settled. The trades interested are plumbers, sheet metal workers, plasterers, bathers, steamfitters, painters, electrical workers, stone cutters and marble workers. The bricklayers, according to reports from Labor Temple, are in sympathy with the movement but cannot go out on account of an agreement with the employers at the settlement of their recent strike which settlement was the effect that on receipt of their additional 5 cents an hour they would not join in sympathetic strikes such as this.
