The application to the government for railway subsidies during the last session aggregated \$21,000,000.

The balance remaining on deposit in the Dominion Government Savings Bank May 1st, was \$19,241,139.

A thousand dollar brick of gold was crushed from 211 tons of quartz at the Moega mines a few days ago.

Up to the present time the Canadian government has given 40,000,000 acres of land to railroad companies.

The business failures in Canada during the past week numbered 15. In the corresponding week last year there were 19 for Canada.

The Perry Creek Gold Mining Company's ground is now producing dust at monthly rate that will aggregate about \$20,000 a year.

The area under cultivation in Manitoba and the North-West is estimated at 3,360,000 acres of wheat and 357,000 acres in other grain.

It is expected that the recent additions to the Parliament buildings in Ottawa will cost over a million instead of \$650,000, as stated.

Of the cities of Canada, the death rate of Montreal is largest, being for 1898 238 per 1,000, and that of Belleville the lowest, being 92 per thousand.

The Yarmouth, on Saturday, took to Boston 130 barrels of mackerel and 911 crates of lobsters, valued in all at \$4,100. Mackerel continues very scarce.

The imports of Canada for the past ten years aggregate \$86,000,000, and the duties collected \$19,000,000, an increase of \$1,500,000 over the same period last year.

We learn that Peter Dunbrack has cut another rich lead on the North Brookfield, which shows gold in many places for over 300 feet in length—*Gold Hunter.*

Three copper kettles and a human skeleton were unearthed about three miles from Bathurst last week. The skeleton is of large size and is supposed to have been in the earth more than 100 years.

A final dividend of twenty per cent. on the notes of the defunct Maritime Bank, St. John, is now being paid. The estate of McLellan & Co. also paid a recent dividend of ten per cent., making 70 per cent. paid so far.

The salary of the head of affairs in Canada is \$10,000, or in Canadian currency \$18,000.00. Adding to the salary the expenses of Rideau Hall, the cost of the Governor Generalship to the people of the Dominion is just \$100,000 a year.

The value of land in Moncton is going up at a surprising rate. Two years ago the owner of a lot on Luis street, 50 by 100 feet, and situated about 100 yards north of St. George street, offered it for \$400. To-day an intending purchaser was informed that he could get the land for \$800.

There is a great run of shad in the Kennebecas. Large numbers have been taken between Hampton and North Junction, and in the Kennebecas netted 131 in a single night recently, and Thursday night the same lucky fisherman, with a single net, topped the record with a haul of 175 fine fish.

Lobster factories on the Nova Scotia coast at Wallace are doing more than the usual amount of business. J. H. Barker, who is doing the best business, has seventy hands; Z. A. Mackay, five boats and thirty hands; Smith & Lantz, eight boats and thirty-five hands; Burnham Morrell ten boats and over forty hands. Is it any wonder that the lobster is getting scarce?

H. G. C. Ketchum, Sir John Fowler and B. Barker are doing the best business in the province in the construction of the Chignecto Ship railway, and in Ottawa and have submitted plans of the work for approval of the government. Preferred shares of the company were, at last accounts, at 174 cents premium. Work is being carried on night and day in order to complete it by September, 1899.

Several shareholders of the Joggins Coal Mining Association and of the Phoenix Coal Company, are talking about making a protest to the Nova Scotia government against the sale of the Joggins railway on the ground that the railway was subsidized for the best interests of the Joggins and Phoenix stockholders. The Prospect Coal Company will likely accept Mr. Leslie's offer of \$40,000.

The insured must die to win, so says the Cynic. The uninsured must die in all the same, and doesn't win; but in many instances he leaves in the "annoying tug" with his wife ekes out a living for his children, a monument to his selfishness, on which is inscribed the words of St. Paul: "If any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel." You can best escape this reproach, by letting The Dominion Safety Fund Life Association, St. John, N. B., provide for your household when your own powers cease in death.

I have visited both parts of the Marine Railway and find them plodding along with the great work. The way is cleared from shore to shore, and at Port Lawrence and Tishish the work on the docks and breakwaters is beginning to show its progress. The steam shovel has visited both parts of the digging and a car is loaded with from two to three shovel fulls!"—*Windsor Tribune.*
