AROUND THE CITY

Found by the Police.
A lace collar, found on Sydney street Saturday afternoon and handed to the police can be had on the owner applying at the central police station.

Injured in Fall.
About 3.30 o'clock Saturday afternoon Jeremiah Tennessee fell off an express wagon on Carleton street and received severe injury to his head. He was assisted to his home on City road.

The Dust Nuisance.
The high winds and dry weather of the last few days have kept the dust moving about the city in clouds. The city water carts made an effort to cope with the situation, but it was not an easy matter to dampen the activities of the dust.

Berths to be Allotted.
The weekly meeting of the city council will be held this afternoon. Last week matters were very quiet in civic circles, and it is not expected there will be much business before the meeting today beyond the allotment of the berths at Sand Point to the different steamship companies.

Is Going to Toronto.
At the close of the fair being held by the Carleton Curling Club, the members of the club met and presented a handsome travelling bag to Roy Dryan, one of the members of the club, who is leaving the city for Toronto, where he has accepted a position.

Drawing for Prizes Tonight.
The City Cornet Band "Round the World" Fair closed Saturday night and proved most successful. The drawing for the grand prize of \$100 or a trip round the world, and the 94 trip tickets or equivalent in cash will take place at the St. Andrew's rink tonight at 8.30 o'clock.

TWO WEEKS MISSION IN CATHEDRAL PARISH

Exercises begun yesterday. Priests of Redemptorist Order conducting services—Lighting System.

In the Cathedral yesterday the two weeks' mission which is to be held for members of the parish was opened. The mission will be conducted by Fathers Kane, Hogarty and Walsh, of the Redemptorist. At the masses yesterday morning the regulations were announced for the mission.

Last evening at half past seven o'clock the first service in connection with the mission was held, when the women of the parish attended. All the week the services will be for women, next week being for the men of the parish.

The new electric lighting system which has been installed in the church was used last night, and was found a great improvement over the old gas lights. The service has not yet been completed, but when finished will add greatly to the beauty of the building.

LUCID EXPOSITION OF SOCIALIST DOCTRINE

Some of the Decidedly "High-brow" Sentiments Expressed at Last Evening's Meeting of Socialists

That the fundamental moral laws arise out of the social relations, and that since the break-up of the tribal communities, the moral standards of any particular period have reflected the material interests of the dominant social class within the particular form of society, were statements made at the socialist meeting last evening. The socialists appeared to be in agreement with the Bishop of Nova Scotia that Christianity was not being tried today. But they claimed that the teachings of Christ were practicable, though not under present conditions. They claimed also that the ineptitude of the church was largely due to the fact that it clung to the idealism of Kant, and did not adequately recognize the relation between the hypocrisy of the age and the competitive system of industry which really involved rivalry in ill-doing, since good intentions in business or any of the material relations could not withstand the tendency of competition to reduce everything to a common level. The good employers of the good workmen had to follow the lead of the most unscrupulous.

JURY IN REID CASE TOGETHER FOR SUNDAY

Counsel Completed Their Addresses at 6 O'clock Saturday Afternoon

NO WITNESSES WERE CALLED BY DEFENSE

Jurymen Spent Yesterday Locked Up—His Honor, Judge White, will Deliver Charge this Morning.

The hearing of evidence in the case of Violet Reid, charged with infanticide, was concluded on Saturday morning before Mr. Justice White in the Circuit Court, and in the afternoon counsel addressed the jury. At six o'clock the jury were locked up until this morning. The case for the Crown was completed during the morning and the defence announced that no witnesses would be called.

The principal witness Saturday morning was Chief of Police Rideout of Moncton, who investigated the case at the request of the Attorney General. His evidence was largely a repetition of that given at the preliminary hearing.

Mrs. Jessie Besson was called to the stand when the court resumed Saturday morning. She testified that she occupied the position of Matron of the Evangeline Home. "I was introduced to the prisoner as Annie Cameron," she said. "On May 20th, she came to the Home between 9 and 10 in the morning. When she came to the Home Miss Cook introduced me to her and she told me she had come in to do some shopping. I was called to the phone and didn't see her again. Miss Cook, however, said she wanted to know what I would say if the police came. I sent back word that the best thing to do would be to make a clean breast of it. The prisoner returned later in the morning and I had a talk with her. She told me the baby had been given to her cousin at the depot and he had taken it to Michigan. She said she had seen the doctor and he would say nothing of the confinement. I was subpoenaed to Fredericton Junction. While there I talked to the prisoner and advised her to make a clean breast of anything she might be hiding."

Mr. Guthrie examined the witness, who stated that she was comparatively sure that it was Monday, May 26th, when the prisoner called.

Mr. Guthrie—Her idea in wishing to conceal the birth of her child was to keep it from her friends rather than from fear of the police, was it not?

Miss Annie Weaver was then called to the stand. She stated that she had been connected with the Evangeline Home since January. She had known Miss Reid as Annie Cameron. "After the birth of the baby," she continued, "she stated that her cousin in Sackville was going to adopt the child. When she left the Home I packed her bag, putting in a quantity of clothing, leaving it for her at the hospital. This was about three-quarters of the quantity of clothing she had brought with her to the Home. The child had long black hair, black eyebrows and large eyes."

Examined by Mr. Guthrie, witness stated that she had seen the baby, a fat, the child of the fanatic's breast. This has ceased to be the case, however. The history of the movement with its successes and its failures shows that to accomplish the aims of the temperance worker we must have the sound sentiment of the community behind the laws on the matter; we must have wise laws on the statute books and a wise administration of these laws. With these three conditions the work of the temperance reformer is assured of success.

He referred to the relative positions of the different countries in the matter of consumption of liquor, showing that Canada, per capita, consumes considerably less than the countries of the old world. Canada's consumption per capita is six gallons; United States, 22 gallons; England, 35 gallons, and Belgium, 50 gallons.

An encouraging sign for the temperance worker is to be found in the fact that the common sense of the business community is awakening to a realization of the menace which the drink evil is to the community. From a financial viewpoint it is realized that the liquor evil is working to the detriment of the community, and even if not impelled by any higher motive they are for this reason at least helping stamp out the evil.

West End Fire. Yesterday morning at 10.25 o'clock a fire was discovered on the roof of Mrs. John Murphy's house at the corner of Rodney and Watson streets, West End, and an alarm was sent in from Box 213. The firemen found it necessary to cut a small hole in the roof and the fire was extinguished with a few buckets of water.

Last evening the firemen were given a needless run when some person sent in a false alarm from Box 52, on Pond street, near Fleming's foundry.

Witness examined the registers at the Dufferin Hotel, and was unable to find the names of anyone called McAlpine at the time when Miss Reid had said she had met them there. In her statement to the officer, she had said that when she reached the Dufferin she had handed her child over to a Mr. and Mrs. McAlpine, who had taken it to Michigan and adopted it.

Mr. Guthrie—Where do you believe the child met its death?

Witness—I think it was murdered in the Dufferin.

Witness stood down, and the court took recess for five minutes.

William T. Leavitt, the next witness, stated the prisoner had come to the Dufferin with a baby and a suit case in a hack. "I took her to the ladies' parlor," continued witness, "and left her there."

This concluded the case for the Crown, and Mr. Guthrie announced that the defence would call no witnesses.

Mr. Guthrie commenced his address to the jury. At one o'clock the court adjourned. At 2.30 o'clock court resumed and counsel completed their addresses to the jury. At 6 o'clock the jury was locked up until this morning. His Honor will deliver the charge to the jury this morning.

NO DOUBT ABOUT THE TITLE, OCCUPANTS' SERIOUS WURT

Five Ton Touring Car Goes into Ditch at Silver Falls—Occupants Pinned Underneath Machine—John S. McLean has Leg Broken—Others in Party Receive Painful Injuries.

An automobile accident with serious results occurred on the road near the foot of the hill at Silver Falls at 5.15 o'clock Saturday afternoon, and it is a great wonder that the five gentlemen who were occupants of the car were not killed.

The large touring car, weighing nearly five tons and owned by F. E. Williams, started out from the city, having as occupants besides Mr. Williams, Kenneth J. Molise, John S. McLean, Alexander H. Campbell, and James H. Pullen. It was the intention of the party to motor to Otter Lake, where Mr. McLean's mother and sister are summering. The party intended remaining at the lake over night and making an early start on Sunday morning to drive around to Hampton and return to the city. Everything went along well until Mr. Williams, who was driving the car, turned out on the side of the road near the foot of the hill at Silver Falls to pass a team. As he did so a front wheel of the automobile struck some object and in an instant the wheel was ditched and all the spokes were broken, and as the axle struck the road the car with its occupants tumbled completely over, with the wheels on top.

Mr. Campbell was thrown clear of the car into the grass on the side of the road, while his companions were not so fortunate, but were pinned under the car. Mr. Williams had his legs badly bruised. Mr. McLean had his legs bruised and his hip and nose

badly cut. Mr. Pullen had a shoulder dislocated, and Mr. McLean was the most unfortunate of the five, for when his companions crawled from underneath the car they found that he was caught. They lifted the hood of the car and extricated him, and it was found that one of his legs was broken about half way between the hip and the knee. He was made as comfortable as possible and a telephone message was sent to the city for the ambulance. Dr. Thomas Walker also responded to the call and both the physician and the ambulance were on the scene in remarkably quick time. Mr. McLean was placed in the ambulance and conveyed to the General Public Hospital, where the broken limb was set.

A wrecking crew from the Princess Garage took charge of the car and brought it into the city and the party, who were injured were driven into the city in an automobile and received attention. Mr. Pullen was attended by Dr. Bentley and his shoulder put in place again.

The automobile was badly damaged. The windpumps were broken, the steering wheel was smashed, and with such force did the car catch up on the hard road when it turned over that the leather upholstery on the seats was torn.

With the exception of the severe injury to Mr. McLean, the other four got off most fortunately.

Mr. McLean will likely be confined for some weeks before he is able to be around again.

TEMPERANCE CAUSE HAS ADVANCED IN CANADA

F. S. Spence, of Dominion Alliance Speaks Encouraging Words of Movement Against Liquor Traffic.

In St. David's church yesterday afternoon a large audience heard an interesting address on temperance made by the speaker before F. S. Spence, president of the Dominion Alliance, S. B. Bustia presided.

Mr. Spence in the course of his address traced the history of the movement for the abolition of the liquor traffic, outlining the various stages the movement had gone through since its inception, showing the imperfections of the earlier efforts along this line, how by degrees a perfect machine had been moulded, until today the temperance movement is being carried on in a systematic and organized manner.

The progress of the Christian church in the matter of temperance reform, the speaker characterized as something marvelous since this body had awakened to the realization of the fact that the fight against the drink evil is her work.

The movement is comparatively new, Mr. Spence said. It is only a matter of a few score years since they were no temperance societies. Today, however, every church has its temperance society; the statute books of every land are laden with laws dealing with the liquor traffic, and the abolition of legalized liquor selling is bound to be the result.

For many years the idea prevailed that the temperance movement was a fad, the child of the fanatic's brain. This has ceased to be the case, however. The history of the movement with its successes and its failures shows that to accomplish the aims of the temperance worker we must have the sound sentiment of the community behind the laws on the matter; we must have wise laws on the statute books and a wise administration of these laws. With these three conditions the work of the temperance reformer is assured of success.

He referred to the relative positions of the different countries in the matter of consumption of liquor, showing that Canada, per capita, consumes considerably less than the countries of the old world. Canada's consumption per capita is six gallons; United States, 22 gallons; England, 35 gallons, and Belgium, 50 gallons.

An encouraging sign for the temperance worker is to be found in the fact that the common sense of the business community is awakening to a realization of the menace which the drink evil is to the community. From a financial viewpoint it is realized that the liquor evil is working to the detriment of the community, and even if not impelled by any higher motive they are for this reason at least helping stamp out the evil.

West End Fire. Yesterday morning at 10.25 o'clock a fire was discovered on the roof of Mrs. John Murphy's house at the corner of Rodney and Watson streets, West End, and an alarm was sent in from Box 213. The firemen found it necessary to cut a small hole in the roof and the fire was extinguished with a few buckets of water.

Last evening the firemen were given a needless run when some person sent in a false alarm from Box 52, on Pond street, near Fleming's foundry.

Witness examined the registers at the Dufferin Hotel, and was unable to find the names of anyone called McAlpine at the time when Miss Reid had said she had met them there. In her statement to the officer, she had said that when she reached the Dufferin she had handed her child over to a Mr. and Mrs. McAlpine, who had taken it to Michigan and adopted it.

Mr. Guthrie—Where do you believe the child met its death?

Witness—I think it was murdered in the Dufferin.

Witness stood down, and the court took recess for five minutes.

VARIETY OF CASES IN THE POLICE COURT

Fine of Twenty Dollars Struck for Street Fight—Boys Charged with Trespass in Report.

In the police court Saturday Percy McCullough and Robert Cobham were charged by I. C. R. Policeman Smith with trespassing on the cars on the arrival of the trains. Cobham pleaded guilty while McCullough pleaded not guilty and evidence was given to show that he was not there at the time and that another boy had given the officer his name instead of that of Harold Garnett, who was there. Cobham stated that he has a right in the cars as he was employed by Frank Curran, who has charge of the news stand and news agents. The case was adjourned until Mr. Curran can attend.

Edgar McLeod, reported for using obscene language, was remanded.

Albert Wright, charged with driving on the wrong side of the street, was fined ten dollars.

George Rhinehart, reported by Secretary Wetmore, of the S. P. C., for driving a team horse unit for work, asked for a postponement until a report from a veterinarian can be given to the court.

Norman McDonald and John Mitchell were charged with fighting on Brussels street. McDonald pleaded guilty. Mitchell pleaded not guilty to the charge of fighting and also to supplying liquor to Michael McCann. Both were remanded. Henry Crawford was charged by Officer McNamee with being drunk up in the fight and was fined \$20.

A Little Cold for Bare Hands From This On. Try a pair of those London kid gloves at F. A. Dykeman & Co.'s store. They are the best \$1.00 kid gloves to be had.
